Assistance to States for the Education of Children with Disabilities and the Early Intervention Program for Infants and Toddlers with Disabilities

AGENCY: Office of Special Education and Rehabilitative Services, Department of Education.

ACTION: Final Regulations.

SUMMARY: The Secretary issues final regulations for the Assistance to States for Education of Children with Disabilities program under Part B of the Individuals with Disabilities Education Act (IDEA; Part B) and the Early Intervention Program for Infants and Toddlers with Disabilities under Part C of the Act (Part C). These regulations are needed to implement changes made to Part B by the IDEA Amendments of 1997; make other changes to the part B regulations based on relevant, longstanding policy guidance; and revise the requirements on State complaint procedures under both the Part B and Part C program.

DATES: These regulations take effect on May 11, 1999. However, compliance with these regulations will not be required until the date the State receives FY 1999 funding (expected to be available for obligation to States on July 1, 1999) under the program or October 1, 1999, whichever is earlier. Affected parties do not have to comply with the information collection requirements contained in the regulations listed under the Paperwork Reduction Act of 1995 section of this preamble until the Department publishes in the **Federal Register** the control number assigned by the Office of Management and Budget (OMB) to these information collection requirements. Publication of the control numbers notifies the public that OMB has approved these information collection requirements under the Paperwork Reduction Act of 1995.

FOR FURTHER INFORMATION CONTACT: Thomas Irvin or JoLeta Reynolds (202) 205-5507. Individuals who use a telecommunications device for the deaf (TDD) may call (202) 205-5465.

Individuals with disabilities may obtain this document in an alternate format (e.g., Braille, large print, audiotape, or computer diskette) on request to Katie Mincey, Director of the Alternate Formats Center. Telephone: (202) 205-8113.

SUPPLEMENTARY INFORMATION: On October 22, 1997, the Secretary published a notice of proposed rulemaking (NPRM) in the **Federal Register** (62 FR 55026) to amend the regulations governing the Assistance to States for Education of Children with Disabilities program (part 300), the Preschool Grants for Children with Disabilities program (part 301), and the Early Intervention

Program for Infants and Toddlers with Disabilities (part 303). A key purpose of the NPRM was to implement changes made by the IDEA Amendments of 1997 (Pub. L. 105-17).

Since that time, the Department has published final regulations for both the Preschool Grants program (63 FR 29928, June 1, 1998) and the Early Intervention program for Infants and Toddlers with Disabilities (63 FR 18297, April 14, 1998), to incorporate the requirements added to those programs by Pub. L. 105-17. On April 14, 1998, a document was published in the **Federal Register** inviting comment on whether the regulations for the Early Intervention program for Infants and Toddlers with Disabilities should be further amended (63 FR 18297). (A subsequent document reopening the comment period was published on August 14, 1998 (63 FR 43866)).

The final regulations in this publication are needed to conform the existing regulations under Part B of the Act to the new statutory requirements added by Pub. L. 105-17, including (1) amending requirements under prior law related to areas such as State and local eligibility, evaluation, and individualized education programs (IEPs), and (2) incorporating new requirements in the Act (e.g., those relating to discipline, performance goals and indicators, participation of children with disabilities in State and district-wide assessments, procedural safeguards notice, and mediation).

The regulations have also been amended to incorporate relevant longstanding interpretations of the Act that have been addressed in nonregulatory guidance in the past and are needed to ensure a more meaningful implementation of the Act and its regulations for children with disabilities, parents, and public agencies. These interpretations are based on the statutory provisions of the IDEA that were in effect prior to the IDEA Amendments of 1997 and that were not changed by those Amendments. Examples of provisions of the regulations that incorporate prior Department interpretations of the statute include:

Section 300.7(c)(9)—recognizing that some children with attention deficit disorder (ADD) may be identified under the category of other health impairment;

Section 300.19—recognizing that foster parents may, under certain circumstances and if permitted under State law, qualify as a “parent”;

Section 300.121(c)—recognizing that if a child’s third birthday is in the summer, the child’s IEP team determines the date when services begin under the child’s IEP or IFSP. (The team must develop the IEP or IFSP by the child’s third birthday.);

Section 300.122(a)(3)—recognizing that graduation with a regular high school diploma ends the child’s eligibility under Part B;

Section 300.309—recognizing that extended school year services must be provided if necessary for the provision of a free appropriate public education to the child; and

Section 300.519—identifying what constitutes a change of placement for disciplinary purposes under these regulations.

In addition, changes have been made to the requirements on State complaint procedures in the regulations for Part B (§§300.660-300.662), and conforming changes have been made in the Part C regulations (§§303.510-303.512).

Analysis of Comments and Changes

In response to the Secretary's invitation to comment on the NPRM published in the **Federal Register** on October 22, 1997 (62 FR 55026), about 6,000 individuals, public agencies, and organizations submitted written or oral comments. An analysis of the public comments received, including a description of the changes made in the proposed regulations since publication of the NPRM, is published as Attachment 1 to these final regulations. The perspectives of individuals and groups of parents, teachers, related service providers, State and local officials, individuals with disabilities and members of Congress were very important in helping to identify where changes were necessary in the proposed regulations, and in formulating many of those changes. The detailed, thoughtful comments of so many individuals and organizations clearly demonstrated a high level of commitment to making sure that the IDEA and its regulations make a real difference in the day-to-day education of our children. In light of the comments received, a number of significant changes are reflected in these final regulations.

Effective Date of These Regulations

These regulations take effect on May 11, 1999. As these regulations were not in effect at the time Federal fiscal year (FY) 1998 funds (funds for use during school year 1998-99) became available for obligation to States, compliance with the requirements of these regulations, that are not statutory requirements or provisions of pre-existing regulations, will not be mandatory for this grant year. When either the FY 1998 funds that are unobligated by States and school districts become carryover funds (October 1, 1999) or, if earlier, the State receives FY 1999 funding (expected to be available for obligation to States July 1, 1999) compliance with these final regulations is required. This will enable all parties to become familiar with the new regulations without requiring changes that could interrupt school or program operations in the middle of a grant year. However, States and school districts may adopt and use these regulations when they are effective, and are encouraged, to the greatest extent possible, to start to implement them as soon as possible during this school year. In any case, the statutory requirements of the Individuals with Disabilities Education Act Amendments of 1997 (IDEA Amendments of 1997) are in effect and must be complied with throughout the 1998-99 school year. In addition, States and school districts must comply with all requirements of the Part 300 regulations that were in effect at the beginning of this school year unless inconsistent with the IDEA Amendments of 1997 or these final regulations. Applications for grants for FY 1999 funds must be consistent with the requirements of these final regulations.

Most of the provisions of the IDEA Amendments of 1997 relating to Parts B and C of the Act have been in effect since enactment, June 4, 1997, with a few provisions, such as the new Part B provisions concerning individualized

education programs and the comprehensive system of personnel development, taking effect on July 1, 1998. Therefore, States and school districts already are familiar with the statutory provisions of the IDEA Amendments of 1997 to which they must comply.

Major Changes in the Regulations

The following is a summary of the major substantive changes from the NPRM in these final regulations:

1. General Changes

- All notes in the NPRM related to the sections or subparts covered in these final regulations have been removed. The substance of any note that should be required for proper implementation of the Act has been added to the text of these final regulations. Information in notes considered to be directly relevant to the "Notice of Interpretation" on IEP requirements has been added to the text of that notice in Appendix A to these final regulations. The substance of any note considered to provide clarifying information or useful guidance has been incorporated into the discussion of the applicable comments in the "Analysis of Comments and Changes" (see Attachment 1 to these final regulations). All other notes have been deleted.
- Appendix C in the NPRM ("Notice of Interpretation on IEPs) has been redesignated as "Appendix A" in these final regulations; and a new Appendix B—Index to IDEA Part B Regulations has been added.
- Three attachments have also been added: Attachment 1—Analysis of Comments and Changes; Attachment 2—Final Regulatory Flexibility Analysis; and Attachment 3—Table showing "Disposition of NPRM notes in Final Part 300 and 303 Regulations." However, these attachments will not be codified in the Code of Federal Regulations.

2. Changes in Subpart A—General

- Proposed §300.2 (Applicability of this part to State, local, and private agencies) has been revised to include "public charter schools that are not otherwise included as local educational agencies (LEAs) or educational service agencies (ESAs) and are not a school of an LEA or ESA" and to specify that the rules of Part 300 apply to all public agencies in the State providing special education and related services.
- Consistent with the general decision to not use notes in these final regulations, proposed Note 1 immediately preceding §300.4 in the NPRM, (which included a list of terms defined in specific subparts and sections of the regulations) has been deleted and the terms included as part of an index to these regulations (see Appendix B).
- The proposed definition of "child with a disability" (§300.7(a)) has been revised to clarify that if a child with a disability needs only a related service and not special education, the child is not eligible under this part; but if the

related service is considered to be special education under State standards, the child would be eligible.

- The proposed definition of "other health impairment" ("OHI"), at §300.7(c)(9), has been amended to (1) add "attention deficit disorder" (ADD) and "attention deficit hyperactivity disorder" (ADHD) to the list of conditions that could render a child eligible under OHI, and (2) clarify that, with respect to children with ADD/ADHD, the phrase "limited strength, vitality, or alertness" includes "a child's heightened alertness to environmental stimuli that results in limited alertness with respect to the educational environment."
- The proposed definition of "Day" (§300.9) has been retitled "Day; business day; school day," and definitions of "business day" and "school day" have been added.
- The proposed definition of "educational service agency" (§300.10) has been revised to clarify that the term "[i]ncludes entities that meet the definition of "intermediate educational unit" in section 602(23) of IDEA as in effect prior to June 4, 1997."
- The proposed definition of "general curriculum" in §300.12 of the NPRM and the explanatory note following that section have been deleted. The term is explained where it is used in §300.347 and in Appendix A regarding IEP requirements.
- The proposed definition of "local educational agency" (§300.18) has been amended to clarify, consistent with new statutory language concerning public charter schools, that the term includes public charter schools that are established as an LEA under State law.
- The proposed definition of "native language" (§300.19) has been amended to specify that (1) in all direct contact with a child (including evaluation of the child), the native language is the language normally used by the child in the home or learning environment, and (2) for an individual with deafness or blindness, or with no written language, the mode of communication is that normally used by the individual (such as sign language, braille, or oral communication).
- The proposed definition of "parent" has been amended to (1) add language clarifying that the term means a natural or adoptive parent of a child and a person acting in the place of a parent (such as a grandparent or stepparent with whom the child lives, or a person who is legally responsible for the child's welfare), and (2) permit States in certain circumstances to use foster parents as parents under the Act unless prohibited by State law.
- The proposed definition of "public agency" (§300.22) has been amended to add to the list of examples of a public agency "public charter schools that are not otherwise included as LEAs or ESAs and are not a school of an LEA or ESA", consistent with new statutory language concerning public charter schools.

- The proposed definition of "parent counseling and training," under the definition of "related services," (§300.24(b)(7)) has been amended to add that the term also means "helping parents to acquire the necessary skills that will allow them to support the implementation of their child's IEP or IFSP."
- The proposed definition of "special education" (§300.26) has been amended to add "travel training" as a special education service and to include a definition of the term.

3. *Changes in Subpart B—State and Local Eligibility*

State Eligibility

- Proposed §300.110 (Condition of assistance) has been amended to more explicitly state what is required for compliance with the State eligibility requirements.
- Proposed §300.121 (FAPE) has been amended to specify (1) requirements for providing FAPE for children with disabilities beginning at age 3; (2) that services need not be provided during periods of removal under §300.520(a)(1) to a child with a disability who has been removed from his or her current placement for 10 school days or less in that school year, if services are not provided to a child without disabilities who has been similarly removed; (3) the standards that are used to determine appropriate services for children with disabilities who have been removed from their current placement for more than 10 school days in a school year; (4) that LEAs must ensure that FAPE is available to any child with a disability who needs special education and related services, even though the child is advancing from grade to grade; and (5) that the determination that a child who is advancing from grade to grade is eligible under this part must be made on an individual basis by the group within the LEA responsible for making eligibility determinations.
- Proposed §300.122 (Exception to FAPE for certain ages) has been amended to (1) specify situations in which the exception to FAPE for students with disabilities in adult prisons does not apply, and (2) make clear that graduation from high school with a regular diploma is a change in placement requiring notice in accordance with §300.503. (A related change to §300.534(c) makes clear that a reevaluation is not required for graduation with a regular high school diploma or termination of eligibility for exceeding the age eligibility for FAPE under State law.)
- Proposed §300.125 (Child find) has been revised to (1) clarify that the child find requirements apply to highly mobile children (e.g., migrant and homeless children), and to children who are suspected of being a child with a disability under this part, even though they are advancing from grade to grade, and (2) add needed clarifications of requirements relating to child find for children from birth through age 2 when the SEA and lead agency for the Part C program are different.

- Proposed §300.136 (Personnel standards) has been amended as follows:
 - (1) The proposed definition of "profession or discipline" in §300.136(a)(3) has been revised to clarify that the term "specific occupational category" is not limited to traditional categories.
 - (2) The policies and procedures in proposed §300.136(b) have been expanded to provide that (A) each State may determine the specific occupational categories required in the State and revise or expand them as needed; (B) nothing in these regulations requires a State to establish a specific training standard (e.g., a masters degree); and (C) a State with only one entry-level academic degree for employment of personnel in a specific profession or discipline may modify that standard, as necessary, to ensure the provision of FAPE to all eligible children.
 - (3) Proposed §300.136(g) (State policy to address shortage of personnel) has been amended by adding provisions that (A) if a State has reached its established date for a specific profession or discipline, it may still exercise the option in redesignated §300.136(g)(1); and (B) each State must have a mechanism for serving children with disabilities if instructional needs exceed available (qualified) personnel, including addressing those shortages in its comprehensive system of personnel development if the shortages continue.
- Proposed §300.138 (Participation in assessments) has been amended to require appropriate modifications in the administration of the assessments, if necessary.
- Proposed §300.142 (Methods of ensuring services) has been amended as follows:
 - (1) Proposed §300.142(b) (Obligation of noneducational public agencies) has been revised to specify that those agencies may not disqualify an eligible service for Medicaid reimbursement because the service is provided in an educational context.
 - (2) Proposed §300.142(b)(2) (Reimbursement for services by noneducational public agency) has been revised to require that an LEA must provide services in a timely manner if a public noneducational agency fails to provide or pay for the services.
 - (3) Proposed §300.142(e) has been added to make clear that a public agency may use a child's public insurance to provide or pay for services required under Part B, with certain limitations. The public agency (A) may not require parents to sign up for public insurance in order for the child to receive FAPE, (B) may not require parents to incur out-of-pocket expenses in order to file the claim for services under Part B, and (C) may not use the child's benefits under a public insurance program if that use would decrease available lifetime coverage or any other insured benefit, result in the family paying for services that would have been covered by the public insurance and are required for the child outside of the time the child is in

school, increase premiums or lead to discontinuation of services or risk loss of eligibility for home and community-based waivers due to aggregate health-related expenditures.

(4) The proposed provisions on children covered by private insurance have been redesignated as §300.142(f), and revised to provide that a public agency (A) may access a parent's private insurance proceeds only if the parent provides informed consent, and (B) must obtain consent each time it proposes to access those proceeds, and inform the parents that their refusal to permit such access does not relieve the public agency of its responsibility to provide all required services at no cost to the parents.

(5) A new §300.142(g) has been added to permit the use of part B funds to ensure FAPE for (A) the cost of required services under these regulations if the parents refuse consent to use public or private insurance, and (B) the costs of using the parents' insurance, such as paying deductible or co-pay amounts.

(6) Proposed §300.142(f) (Proceeds from public or private insurance) has been redesignated as paragraph (h), and revised to clarify that (A) the insurance proceeds received by a public agency do not have to be returned to the Department or dedicated to the part B program; and (B) funds expended by a public agency from reimbursements of Federal funds will not be considered State or local funds for purposes of State or local maintenance of effort.

(7) A new §300.142(i) has been added to specify that nothing in Part B should be construed to alter the requirements imposed on a State Medicaid agency, or any other agency administering a public insurance program by Federal statute, regulations or policy under Title XIX Title XXI of the Social Security Act, or any other public insurance program.

- Proposed §300.148 (Public participation) has been amended to clarify that a State will be considered to be in compliance with this section if the State has subjected the policy or procedure to a public participation process that is required by the State for other purposes and is comparable to and consistent with the requirements of §§300.280-300.284.
- Proposed §300.154 (Maintenance of State financial support) has been amended to clarify that maintenance of State financial support can be demonstrated on either a total or per-capita basis.

LEA Eligibility—Specific Conditions

- Proposed §300.231 (Maintenance of effort) has been amended to set out the standard for meeting the maintenance of effort requirement.
- Proposed §300.232 (Exception to maintenance of effort) has been amended to specify that the exception related to voluntary retirement or resignation of personnel must be in full conformity with existing school board policies, any

applicable collective bargaining agreement, and applicable State statutes.

- Proposed §300.234 (Schoolwide programs under title I of the ESEA) has been amended to make clear that an LEA that uses Part B funds in schoolwide program schools must ensure that children with disabilities in those schools receive services in accordance with a properly developed IEP and are afforded all applicable rights and services guaranteed under the IDEA.

4. Changes in Subpart C—Services

Free Appropriate Public Education

- Proposed §300.300 (Provision of FAPE) has been amended to specify that the State must ensure that the child find requirements of §300.125 are implemented by public agencies throughout the State. Proposed §300.300 also has been amended to specify that (1) the services provided to the child under this part address all of the child's identified special education and related services needs, and (2) are based on the child's identified needs and not the child's disability category.
- Proposed §300.301 (FAPE—methods and payments) has been amended to add a provision requiring that the State must ensure that there is no delay in implementing a child's IEP, including any case in which the payment source for providing or paying for the special education and related services to the child is being determined.
- Proposed §300.308 (Assistive technology) has been amended to clarify that, on a case-by-case basis, the use of school-purchased assistive technology devices in a child's home or in other settings is required if the child's IEP team determines that the child needs access to those devices in order to receive FAPE.
- Proposed §300.309 (Extended school year (ESY) services) has been amended to specify that (1) ESY services must be provided only if a child's IEP team determines, on an individual basis, that the services are necessary for the provision of FAPE to the child, and (2) an LEA may not limit ESY services to particular categories of disability, or unilaterally limit the type, amount, or duration of those services.
- A new §300.312 (Children with disabilities in public charter schools) has been added to (1) specify that these children and their parents retain all rights under these regulations, and that compliance with part B is required regardless of whether a public charter school receives Part B funds; and (2) address the responsibilities of the following: public charter schools that are LEAs; LEAs if the charter school is a school in the LEA; and the SEA if the charter school is not an LEA or a school of an LEA.
- A new §300.313 (Children experiencing developmental delays) has been added to (1) clarify the circumstances under which the designation "developmental delay" may be used by a State or an LEA in the State; (2)

permit a State or LEA that elects to use that term to also use one or more of the disability categories described in §300.7 for any child aged 3 through 9 who has been determined to have a disability and who, by reason thereof, needs special education; and (3) permit a State to adopt a common definition of developmental delay under Parts B and C of the Act.

Individualized Education Programs (IEPs)

- Proposed §300.341 (retitled "Responsibility of SEA and other public agencies for IEPs) has been revised to (1) consistent with provisions regarding parentally-placed children with disabilities in religious or other private schools (see changes to Subpart D), and (2) to clarify that the section also applies to the SEA if it provides direct services to children with disabilities as well as other public agencies that provide special education either directly, by contract, or through other means.
- Proposed §300.342(b) has been revised to provide that the child's IEP must be accessible to each of the child's teachers and service providers and that teacher and service provider with responsibility for its implementation be informed of his or her specific responsibilities under the IEP and of the specific accommodations, modifications, and supports that must be provided for the child under that IEP.
- Proposed §300.342(d) has been revised to state that all IEPs developed, reviewed, or revised on or after July 1, 1998 must meet the requirements of §§300.340-300.350.
- Proposed §300.343 (IEP meetings) has been revised to clarify that special education and related services must be available to the child within a reasonable period of time following receipt of parent consent to an initial evaluation.
- Proposed §300.344 (IEP Team) has been amended to (1) clarify that the determination of knowledge or special expertise of "other individuals" under §300.344(a)(6) is made by the party who has invited the individual to be a member of the IEP team; and (2) permit a public agency to designate another public agency member of the IEP team to also serve as the agency representative, if the criteria in §300.344(a)(4) are satisfied.
- Proposed §300.345 (Parent participation) has been revised to clarify that (1) the public agency's notice to parents about the IEP meeting must inform them about the ability of either party to invite individuals with knowledge or special expertise to the meeting, consistent with §300.344(a)(6) and (c); and (2) the agency must give the parents a copy of their child's IEP.
- Proposed §300.346 (Development, review, and revision of IEP) has been revised to clarify that, in developing each child's IEP, the IEP team also must consider "as appropriate, the results of the child's performance on any general State or district-wide assessment programs.

- Proposed §300.347 (Content of IEP) has been amended to (1) clarify that "general curriculum" is the same curriculum as for nondisabled children, and (2) delete the requirement that, if the IEP team determines that services are not needed in one or more of the areas specified in the definition of transition services (§300.29), the IEP must include a statement to that effect and the basis upon which the determination was made.
- Proposed §300.350 (Children with disabilities in religiously-affiliated or other private schools) has been deleted. A new §300.455(c) has been added to specify LEA responsibilities regarding the development of "services plans" for private school children.
- Proposed §300.351 (IEP—accountability) has been redesignated as §300.350, and revised to provide that (1) each public agency must make a good faith effort to assist the child to achieve the goals and objectives or benchmarks listed in the IEP; (2) a State or public agency is not prohibited from establishing its own accountability systems regarding teacher, school, or agency performance; and (3) "[n]othing in this section limits a parent's right to ask for revisions of the child's IEP or to invoke due process procedures if the parent feels that efforts required in paragraph (a) of this section are not being met."

Direct Services by SEA

- Proposed §300.360 (Use of LEA allocation for direct services) has been amended to clarify that (1) if an LEA does not elect to apply for its Part B funds, the SEA must use those funds to ensure that FAPE is available to all eligible children residing in the jurisdiction of the LEA; (2) if the local allotment is not sufficient to ensure FAPE to all eligible children within the LEA, the SEA must ensure that FAPE is available to those children; and (3) the SEA may use whatever funding sources are available in the State to ensure that all eligible children within each LEA receive FAPE (see §300.301).
- Proposed §300.370 (Use of SEA allocations) has been amended to clarify that, of the Part B funds it retains for other than administration, the SEA may use the funds either directly, or distribute them to LEAs on a competitive, targeted, or formula basis.

5. Changes in Subpart D—Children in Private Schools

Children with Disabilities in Private Schools Placed or Referred by Public Agencies

- Proposed §300.401 ("Responsibility of SEA") has been revised to provide that a child with a disability placed by a public agency as the means of providing FAPE to the child must receive an education that meets the standards that apply to the SEA and LEA.

Children with Disabilities Enrolled by Their Parents in Private Schools when FAPE is at Issue

- Proposed §300.403 ("Placement of children by parent if FAPE is at issue") has been revised to clarify that (1) the provisions of §§300.450-300.462 apply to children with disabilities placed voluntarily in private schools, even though the public agency made FAPE available to those children; (2) private school placement by the parents must be appropriate (as determined by a court or hearing officer) in order to be eligible for reimbursement, (3) a parental placement does not need to meet State standards that apply to education provided by the SEA and LEAs in order to be appropriate; and (4) the reimbursement provisions of §300.403 also apply if parents of a child with a disability who previously received special education and related services under the authority of a public agency enroll the child in a private preschool program.

Children with Disabilities Enrolled by Their Parents in Private Schools

- Proposed §300.451 ("Child find for private school children with disabilities") has been revised to specify that (1) child find activities for those children must be comparable to child find activities for children with disabilities in public schools, and (2) LEAs must consult with representatives of parentally-placed private school students with disabilities on how to conduct child find activities for that population in a manner that is comparable to those activities for public school children.
- Proposed §300.452 (retitled "Provision of services—basic requirement") has been amended to add a new provision related to the SEA's responsibility for ensuring that a services plan is developed for each private school child with a disability who has been designated to receive services under these regulations.
- Proposed §300.453 ("Expenditures") has been revised to specify that (1) each LEA must consult with representatives of private school children with disabilities to decide how to conduct the annual count of the number of those children; (2) the LEA must ensure that the count is conducted by specified dates, and that the data are used to determine the amount of Part B funds to be earmarked for private school children in the next fiscal year; (3) the costs of child find activities for private school children with disabilities may not be considered in determining whether the LEA met the expenditures requirement of this section; and (4) SEAs and LEAs are not prohibited from providing services to private school children with disabilities beyond those required by this part, consistent with State law or local policy.
- Proposed §300.454 (Services determined) has been revised to specify that each LEA must (1) consult with private school representatives on where services will be provided; (2) conduct meetings to develop, review, and revise a "services plan," in accordance with §300.455, for each private school child with a disability who has been designated to receive services under this part; and (3) ensure that a representative of the private school participates in the

meetings.

- Proposed §300.455 (Services provided) has been revised to specify that (1) each private school child with a disability who has been designated to receive Part B services must have a services plan, and (2) the plan must, to the extent appropriate, meet the requirements of §300.347 with respect to the services provided, and be developed, reviewed and revised consistent with §§300.342-300.346.
- Proposed §300.456 (Location of services) has been revised to make clear that, while transportation might be provided between a child's home or private school and a servicesite if necessary for the child to benefit from or participate in the services offered, LEAs are not required to provide transportation between the child's home and private school.
- Proposed §300.457 (Complaints) has been revised to specify that the due process procedures under this part apply to child find activities for private school children with disabilities, including evaluations.

6. Changes in Subpart E—Procedural Safeguards

Due process Procedures for Parents and Children

- Proposed §300.500 (General responsibility of public agencies; definitions) has been amended as follows:
 - (1) The proposed definition of "consent" (300.500(b)(1)) has been revised to clarify that a revocation of consent does not have a retroactive effect if the action consented to has already occurred.
 - (2) The proposed definition of "evaluation" (§300.500(b)(2)) has been revised by deleting the last sentence of the definition, to ensure that evaluations may include a review of a child's performance on a test or procedures used for all children in a school, grade, or class.
- Proposed §300.501 (Opportunity to examine records; parent participation in meetings) has been amended to (1) delete the word "all" from §300.501(a)(2); (2) delete the definition of "meetings" but provide that the term does not include certain conversations or preparation for a meeting and (3) clarify that each public agency must "make reasonable efforts" related to parental participation in group discussions relating to the educational placements of their child.
- Proposed §300.502 (Independent educational evaluation (IEE)) has been amended to (1) add that, upon request for an IEE, parents must be given information about agency criteria applicable for IEEs; (2) clarify, in §300.502(e)(1), that the criteria under which an IEE is obtained must be the same as that of the public agency "to the extent such criteria are consistent with the parent's right to an IEE," and (3) explain that an explanation of parent disagreement with an agency evaluation may not be required and the public agency may not delay either providing the IEE at public expense or,

alternatively, initiating a due process hearing.

- Proposed §300.503 (Prior notice by the public agency; content of notice) has been amended to delete the provision in §300.503(b)(8) (related to informing parents about the State complaint procedures). (See §300.504(b).)
- Proposed §300.504 (Procedural safeguards notice) has been amended to add State complaint procedures under §§300.660-300.662 to the items included in the notice.
- Proposed §300.505 (Parental consent) has been amended to (1) refer to "informed parent consent;" (2) add "all reevaluations" to the list of actions requiring consent (see §300.505(a)(1)(i)); (3) delete paragraph (a)(1)(iii), and add a new paragraph (a)(3) to specify that parental consent is not required before reviewing existing evaluation data as a part of an evaluation or reevaluation or for administering a test used with all children unless consent is required of all parents; and (4) specify, in paragraph (e), that a public agency may not use a parental refusal to consent to one service or benefit under paragraphs (a) and (d) to deny the parent or child another service or benefit.
- Proposed §300.506 (Mediation) has been revised to (1) add a new §300.506(b)(2) to specify that the mediator must be selected from a list of mediators on a random basis (e.g., a rotation), or that both parties are involved in selecting the mediator and agree with the selection of the individual who will mediate; and (2) add a new §300.506(c)(2) to clarify that payment for mediation services by the State does not make the mediator an employee of the State agency for purposes of impartiality.
- Proposed §300.507 (Impartial due process hearing; parent notice) has been amended to clarify that, in the content of the parent notice, the description of the nature of the problem applies to the action "refused" as well as that proposed by the public agency.
- Proposed §300.509 (Hearing rights) has been revised to clarify that, in paragraph (a)(3), the disclosure is required at least 5 "business" days before the hearing.

- Proposed §300.513 (Attorneys' fees) has been amended to include all of the provisions of section 615(i)(3)(C)-(G) of the Act.
- Proposed §300.514(c) has been amended to provide that a decision by a State hearing or review officer that is in agreement with the parents constitutes an agreement for purposes of pendency.
- Proposed §300.515 (Surrogate parents) has been revised to permit employees of nonpublic agencies that have no role in educating a child to

serve as surrogate parents.

Discipline Procedures

- A new §300.519 (Change of placement for disciplinary removals) has been added regarding change of placement in the context of removals under §§300.520-300.529.
- Proposed §300.520 (Authority of school personnel) has been amended as follows:
 - .(1) Proposed §300.520(a)(1) has been revised to specify that to the extent removal would be applied to children without disabilities, school personnel may order the removal of a child with a disability from the child's current placement for not more than 10 consecutive school days and additional removals of not more than 10 consecutive school days in that same school year for separate incidents of misconduct as long as they do not constitute a change in placement under §300.519, and to make clear that after a child with a disability has been removed from his or her current placement for more than 10 school days in the same school year, during any subsequent days of removal the public agency must provide services to the extent necessary under §300.121(d).
 - (2) Proposed §300.520(b) has been revised to replace "suspension" with "removal," and to specify that when first removing a child for more than 10 school days in a school year, or commencing a removal that constitutes a change of placement, the LEA must within 10 business days, convene an IEP meeting. If the agency had not already conducted a functional behavioral assessment and implemented a behavioral intervention plan for the child the purpose of the IEP meeting is to develop an assessment plan. As soon as practicable after completion of the plan, the LEA must then convene an IEP meeting to develop appropriate behavioral interventions to address the child's behavior. If a child already has a behavioral intervention plan, the purpose of the IEP meeting is to review the plan and its implementation.
 - (3) Proposed §300.520(c) has been deleted and replaced with a provision that requires that if a child with a disability who has a behavioral intervention plan and has been removed for more than 10 school days in a school year subsequently is subjected to a removal that is not a change of placement, the child's IEP team members shall review the behavioral intervention plan, and meet to modify it or its implementation if one or more team members think modifications are needed.
- Proposed §300.521(d) has been modified to make clear that the hearing officer determines the appropriateness of the interim alternative educational setting proposed by school personnel who have consulted with the child's special education teacher.

- Proposed §300.523 (Manifestation determination review) has been amended as follows:
 - (1) Proposed §300.523(a) has been revised to (1) specify that the manifestation determination review is done regarding behavior described in §§300.520(a)(2) and 300.521, or if a removal is contemplated that constitutes a change of placement under §300.519; and (2) require that parents be provided notice of procedural safeguards consistent with §300.504.(2) Proposed §300.523(b) (exception to conducting a manifestation determination review) has been removed.

 - (5) Proposed paragraph (f) has been redesignated as paragraph (e) and a new paragraph (f) has been added to clarify that if in the manifestation review deficiencies are identified in the child's IEP or placement or in their implementation, the public agency must act to correct those deficiencies.
- Proposed §300.524 (Determination that behavior was not a manifestation of disability) has been amended to (1) replace, in paragraph (a), the reference to "section 612 of the Act" with "§300.121(c);" and (2) refer, in paragraph (c), to the placement rules of §300.526.

 - (1) Proposed §300.527(b)(1) has been revised to refer to not knowing how to write rather than illiteracy in English.
 - (2) Proposed §300.527(b)(2) has been revised to clarify that the behavior or performance is in relation to the categories of disability identified in §300.7.
 - (3) Proposed §300.527(b)(4) has been revised to refer to other personnel who have responsibilities for child find or special education referrals in the agency.

(4) Proposed §300.527(c) has been redesignated as paragraph (d), and a new paragraph (c) has been added to provide that if an agency acts on one of the bases identified in paragraph (b), determines that the child is not eligible, and provides proper notice to the parents, and there are no additional bases of knowledge under paragraph (b) that were not considered, the agency would not be held to have a basis of knowledge under §300.527(b).

 - (3) Redesignated §300.528(d) has been revised to specify that expedited due process hearings are appealable consistent with the §300.510.
- Proposed §300.529 (Referral to and action by law enforcement and judicial authorities) has been amended to make clear that copies of a child's special education and disciplinary records may be transmitted only to the extent that such transmission is permitted under FERPA. (Section 300.571 has been amended to note the relationship of this section.)

Procedures for Evaluation and Determination of Eligibility

- Proposed §300.532 (Evaluation procedures) has been amended to (1) require that assessments of children with limited English proficiency must be selected and administered to ensure that they measure the extent to which a child has a disability and needs special education, and do not, instead, measure the child's English language skills (§300.532(a)(2)); (2) provide that the information gathered include information related to enabling the child to be involved and progress in the general curriculum or appropriate activities if the child is a preschool child (§300.532(b)); (3) provide that if an assessment is not conducted under standard conditions, information about the extent to which the assessment varied from standard conditions, such as the qualifications of the person administering the test or the method of test administration, must be included in the evaluation report (§300.532(c)(2)); and (4) provide that

each public agency ensure that the evaluation of each child with a disability under §§300.531-300.536 is sufficiently comprehensive to identify all of the child's special education and related services needs, whether or not commonly linked to the disability category in which the child has been classified.

- Proposed §300.534 (Determination of eligibility) has been amended to clarify that (1) children are not eligible if they need specialized instruction because of limited English proficiency or lack of instruction in reading or math, but do not need such instruction because of a disability, as defined in §300.7; and (2) the evaluation required in §300.534(c)(1) is not required before termination of a child's eligibility under Part B of the Act due to graduation with a regular high school diploma, or ceasing to meet the age requirement for FAPE under State law.
- Proposed §300.535 (Procedures for determining eligibility and placement) has been revised to add "parent input" to the variety of sources from which the public agency will draw in interpreting evaluation data for the purpose of determining a child's eligibility under this part.

Least Restrictive Environment (LRE)

- Proposed §300.550 (General LRE requirements) has been amended to add a cross reference to §300.311(b) and (c), to clarify that the LRE provisions do not apply to students with disabilities who are convicted as adults under State law and incarcerated in adult prisons.
- Proposed §300.552 (Placements) has been amended to (1) include a reference to preschool children with disabilities in the introductory paragraph of this section, and (2) to add a new §300.552(e) prohibiting the removal of child with a disability from an age-appropriate regular classroom solely because of needed modifications in the general curriculum.

- Proposed §300.660 (Adoption of State complaint procedures) has been revised to clarify that if an SEA, in resolving a complaint, finds a failure to provide appropriate services to a child with a disability, the SEA must address (1) how to remediate the denial of those services, including, as appropriate, the awarding of monetary reimbursement or other corrective action appropriate to the needs of the child; and (2) appropriate future provision of services for all children with disabilities.
- Proposed §300.661 (Minimum State complaint procedures) has been revised to clarify that (1) if an issue in a complaint is the subject of a due process hearing, that issue (but not any issue outside of the hearing) would be set aside until the conclusion of the hearing, (2) the decision on an issue in a due process hearing would be binding in a State complaint resolution, and (3) a public agency's failure to implement a due process decision would have to be resolved by the SEA.

8. Changes in Subpart G—Allocation of funds; Reports

- Proposed §300.712 (Allocations to LEAs) has been revised to clarify that, if LEAs are created, combined, or otherwise reconfigured subsequent to the base year (i.e. the year prior to the year in which the appropriation under section 611(j) of the Act exceeds \$4,924,672,200), the State is required to provide the LEAs involved with revised base allocations calculated on the basis of the relative numbers of children with disabilities aged 3 through 21, or 6 through 21, depending on whether the State serves all children with disabilities aged 3 through 5 currently provided special education by each of the affected LEAs. The section also has been expanded to state that, for the purpose of making grants under this section, States must apply, on a uniform basis across all LEAs, the best data that are available to them on the numbers of children enrolled in public and private elementary and secondary schools and the numbers of children living in poverty.

- Proposed §300.713 (Former Chapter 1 State agencies) has been revised to clarify that the amount each former Chapter 1 State agency must receive is the minimum amount.

9. *Changes to part 303*

- Proposed §303.510 (Adopting State complaint procedures) has been revised to clarify that if a lead agency, in resolving a complaint, finds a failure to provide appropriate services, it must address (1) how to remediate the denial of those services, including, as appropriate, the awarding of monetary reimbursement or other corrective action appropriate to the needs of the child and the child's family, as well as (2) appropriate future provision of services for all infants and toddlers with disabilities and their families.
- Proposed §303.512 (Minimum State complaint procedures) has been revised to clarify that (1) if an issue in a complaint is the subject of a due process hearing, that issue (but not any issue outside of the hearing) would be set aside until the conclusion of the hearing, (2) the decision on an issue in a due process hearing would be binding in a State complaint resolution, and (3) a public agency's or private service provider's failure to implement a due process decision must be resolved by the lead agency.

Role of the Regular Education Teacher on the IEP Team

The regulations at §§300.344(a)(2) and 300.346(d) repeat the statutory provisions regarding the role of the regular education teacher in developing, reviewing, and revising IEPs. The extent of the regular education teacher's involvement in the IEP process would be determined on a case by case basis and is addressed in question 24 in Appendix A.

Discipline for Children with Disabilities

Some Key Changes in the Regulations Regarding Discipline for Children with Disabilities

One of the major areas of concern in public comment on the NPRM was the issue of discipline for children with disabilities under the Act. The previous list of major changes briefly describes the major changes from the NPRM that are reflected in these final regulations regarding discipline under §§300.121(d), and 300.519-529. These changes reflect very serious consideration of the concerns of school administrators and teachers regarding preserving school safety and order without unduly burdensome requirements, while helping schools respond appropriately to a child's behavior, promoting the use of appropriate behavioral interventions, and increasing the likelihood of success in school and school

completion for some of our most at-risk students.

The comments also revealed some confusion about several of the provisions of the Act and the NPRM regarding discipline. Limitations in the statute and regulations about the amount of time that a child can be removed from his or her current placement only come into play when schools are not able to work out an appropriate placement with the parents of a child who has violated a school code of conduct. In many, many cases involving discipline for children with disabilities, schools and parents are able to reach an agreement about how to respond to the child's behavior. In addition, neither the statute or the proposed or final regulations impose absolute limits on the number of days that a child can be removed from his or her current placement in a school year. As was the case in the past, school personnel have the ability to remove a child for short periods of time as long as the removal does not constitute a change of placement. To help make this point, the regulations include a new provision (§300.519) that reflects the Department's longstanding definition of what constitutes a "change of placement" in the disciplinary context. In this regulation, a disciplinary "change of placement" occurs when a child is removed for more than 10 consecutive school days or when the child is subjected to a series of removals that constitute a pattern because they cumulate to more than 10 school days in a school year, **and** because of factors such as the length of the removal, the total amount of time the child is removed, and the proximity of the removals to one another. (§300.519). Changes also have been made to §300.520(a)(1) to make clear that multiple short-term removals (i.e., 10 consecutive days or less) for separate incidents of misconduct are permitted, to the extent removals would be applied to children without disabilities as long as those removals do not constitute a change of placement, as defined in §300.519.

Instead of requiring that services begin on the eleventh day in a school year that a child is removed from his or her current educational placement, as was proposed in the NPRM, the regulations take a more flexible approach. If the removal is pursuant to school personnel's authority to remove for not more than 10 consecutive days (§300.520(a)(1)) or for behavior that is not a manifestation of the child's disability, consistent with §300.524 services must be provided to the extent necessary to enable the child to continue to appropriately progress in the general curriculum and appropriately advance toward the goals in his or her IEP. (§300.121(d)). If the removal is by school personnel under their authority to remove for not more than 10 school days at a time (§300.520(a)(1)), school personnel, in consultation with the child's special education teacher, make the determination regarding the extent to which services are necessary to meet this standard. (§300.121(d)(3)(i)). On the other hand, if the removal constitutes a change in placement, the child's IEP team must be involved. If the removal is pursuant to the authority to discipline a child with a disability to the same extent as a nondisabled child for behavior that has been determined to not be a manifestation of the child's disability (§300.524), the child's IEP team makes the determination regarding the extent to which services are necessary to meet this standard. (§300.121(d)(3)(ii)). If the child is being placed in an interim alternative educational setting for up to 45 days because of certain weapon or drug offenses

(§300.520(a)(2)) or because a hearing officer has determined that there is a substantial likelihood of injury to the child or others if the child remains in his or her current placement (§300.521), the services to be provided to the child are determined based on §300.522. In these cases, the interim alternative educational setting must be selected so as to enable the child to continue to progress in the general curriculum, although in another setting, and to continue to receive those services and modifications, including those described in the child's current IEP, that will enable the child to meet the goals set out in that IEP and include services and modifications to address the behavior. (§§300.121(d)(2)(ii) and 300.522).

Under these regulations, IEP team meetings regarding functional behavioral assessments and behavioral intervention plans will only be required within 10 business days of (1) when the child is first removed for more than 10 school days in a school year, and (2) whenever the child is subjected to a disciplinary change of placement. (§300.520(b)(1)). In other subsequent removals in a school year of a child who already has a functional behavioral assessment and behavioral intervention plan, the IEP team members can review the behavioral intervention plan and its implementation in light of the child's behavior, without a meeting, and only meet if one or more of the team members believe that the plan or its implementation need modification. (§300.520(c)).

These final regulations also provide that manifestation determinations, and the IEP team meetings to make these determinations, are only required when a child is subjected to a disciplinary change of placement. (§300.523(a)). These changes should eliminate the need for unnecessary, repetitive IEP team meetings. The discussion of comments regarding the disciplinary sections of the regulations in Attachment 1 provides a fuller explanation of the regulatory provisions regarding discipline.

Answers to Some Commonly Asked Questions about Discipline under IDEA

Prior to the amendments to the Education of the Handicapped Act (EHA) in 1975, (the EHA is today known as IDEA), the special educational needs of children with disabilities were not being met. More than half of the children with disabilities in the United States did not receive appropriate educational services, and a million children with disabilities were excluded entirely from the public school system. All too often, school officials used disciplinary measures to exclude children with disabilities from education simply because they were different or more difficult to educate than nondisabled children.

It is against that backdrop that Pub. L. 94-142 was developed, with one of its primary goals being the elimination of any exclusion of children with disabilities from education. In the IDEA reauthorization of 1997, Congress recognized that in certain instances school districts needed increased flexibility to deal with safety issues while maintaining needed due process protections in the IDEA. The following questions and answers address: (1) the proactive requirements of the IDEA designed to ensure that children with disabilities will be able to adhere to

school rules; (2) IDEA provisions regarding removal of students from their current placement when their behavior significantly violates school discipline codes; and (3) the requirement of the IDEA for the continuation of services for children with disabilities who are disciplined.

1. Why are there special rules about discipline for children with disabilities?

The protections in the IDEA regarding discipline are designed to prevent the type of often speculative and subjective decision making by school officials that led to widespread abuses of the rights of children with disabilities to an appropriate education in the past. For example, in Mills v. Board of Education of the District of Columbia (1972) the court recognized that many children were being excluded entirely from education merely because they had been identified as having a behavior disorder. It is important to keep in mind, however, that these protections do not prevent school officials from maintaining a learning environment that is safe and conducive to learning for all children. Well run schools that have good leadership, well-trained teachers and high standards for all students have fewer discipline problems than schools that do not.

It is also extremely important to keep in mind that the provisions of the statute and regulation concerning the amount of time a child with a disability can be removed from his or her regular placement for disciplinary reasons are only called into play if the removal constitutes a change of placement and the parent objects to proposed action by school officials (or objects to a refusal by school officials to take an action) and requests a due process hearing. The discipline rules concerning the amount of time a child can be removed from his or her current placement essentially are exceptions to the generally applicable requirement that a child remains in his or her current placement during the pendency of due process, and subsequent judicial, proceedings. (See, section 615(j) of the Act and §300.514.) If school officials believe that a child's placement is inappropriate they can work with the child's parent through the IEP and placement processes to come up with an appropriate placement for the child that will meet the needs of the child and result in his or her improved learning and the learning of others and ensure a safe environment. In addition to the other measures discussed in the following questions, the discipline provisions of the IDEA allow responsible and appropriate changes in placement of children with disabilities when their parents do not object.

2. Does IDEA contain provisions that promote proactive up-front measures that will help prevent discipline problems?

Yes. Research has shown that if teachers and other school personnel have the knowledge and expertise to provide appropriate behavioral interventions, future behavior problems can be greatly diminished if not totally avoided. Appropriate staff development activities and improved pre-service training programs at the university level with emphasis in the area of early identification of reading and behavior problems and appropriate interventions can help to ensure that regular

and special education teachers and other school personnel have the needed knowledge and skills. Changes in the IDEA emphasize the need of State and local educational agencies to work to ensure that superintendents, principals, teachers and other school personnel are equipped with the knowledge and skills that will enable them to appropriately address behavior problems when they occur.

In addition, the IDEA includes provisions that focus on individual children. If a child has behavior problems that interfere with his or her learning or the learning of others, the IEP team must consider whether strategies, including positive behavioral interventions, strategies, and supports are needed to address the behavior. If the IEP team determines that such services are needed, they must be added to the IEP and must be provided. The Department has supported a number of activities such as training institutes, conferences, clearinghouses and other technical assistance and research activities on this topic to help school personnel appropriately address behavioral concerns for children with disabilities.

3. Can a child with a disability who is experiencing significant disciplinary problems be removed to another placement?

Yes. Even when school personnel are appropriately trained and are proactively addressing children's behavior issues through positive behavioral intervention supports, interventions, and strategies, there may be instances when a child must be removed from his or her current placement. When there is agreement between school personnel and the child's parents regarding a change in placement (as there frequently is), there will be no need to bring into play the discipline provisions of the law. Even if agreement is not possible, in general, school officials can remove any child with a disability from his or her regular school placement for up to 10 school days at a time, even over the parents' objections, whenever discipline is appropriate and is administered consistent with the treatment of nondisabled children. §300.520(a)(1). However, school officials cannot use this authority to repeatedly remove a child from his or her current placement if that series of removals means the child is removed for more than 10 school days in a school year and factors such as the length of each removal, the total amount of time that the child is removed, and the proximity of the removals to one another lead to the conclusion that there has been a change in placement. §§300.519-300.520(a)(1). There is no specific limit on the number of days in a school year that a child with a disability can be removed from his or her current placement. After a child is removed from his or her current placement for more than 10 cumulative school days in a school year, services must be provided to the extent required under §300.121(d), which concerns the provision of FAPE for children suspended or expelled from school.

If the child's parents do not agree to a change of placement, school authorities can unilaterally remove a child with a disability from the child's regular placement for up to 45 days at a time if the child has brought a weapon to school or to a school function, or knowingly possessed or used illegal drugs or sold or solicited the sale of controlled substances while at school or a school function.

§300.520(a)(2). In addition, if school officials believe that a child with a disability is substantially likely to injure self or others in the child's regular placement, they can ask an impartial hearing officer to order that the child be removed to an interim alternative educational setting for a period of up to 45 days. §300.521. If at the end of an interim alternative educational placement of up to 45 days, school officials believe that it would be dangerous to return the child to the regular placement because the child would be substantially likely to injure self or others in that placement, they can ask an impartial hearing officer to order that the child remain in an interim alternative educational setting for an additional 45 days. §300.526(c). If necessary, school officials can also request subsequent extensions of these interim alternative educational settings for up to 45 days at a time if school officials continue to believe that the child would be substantially likely to injure self or others if returned to his or her regular placement. §300.526(c)(4).

Additionally, at any time, school officials may seek to obtain a court order to remove a child with a disability from school or to change a child's current educational placement if they believe that maintaining the child in the current educational placement is substantially likely to result in injury to the child or others.

Finally, school officials can report crimes committed by children with disabilities to appropriate law enforcement authorities to the same extent as they do for crimes committed by nondisabled students. §300.529.

4. Do the IDEA regulations mean that a child with a disability cannot be removed from his or her current placement for more than ten school days in a school year?

No. School authorities may unilaterally suspend a child with a disability from the child's regular placement for not more than 10 school days at a time for any violation of school rules if nondisabled children would be subjected to removal for the same offense. They also may implement additional suspensions of up to ten school days at a time in that same school year for separate incidents of misconduct if educational services are provided for the remainder of the removals, to the extent required under §300.121(d). (See the next question regarding the provision of educational services during periods of removal.) However, school authorities may not remove a child in a series of short-term suspensions (up to 10 school days at a time), if these suspensions constitute a pattern that is a change of placement because the removals cumulate to more than 10 school days in a school year and because of factors such as the length of each removal, the total amount of time the child is removed, and the proximity of the removals to one another. But not all series of removals that cumulate to more than 10 school days in a school year would constitute a pattern under §300.519(b).

Of course, in the case of less serious infractions, schools can address the misconduct through appropriate instructional and/or related services, including conflict management, behavior management strategies, and measures such as

study carrels, time-outs, and restrictions in privileges, so long as they are not inconsistent with the child's IEP. If a child's IEP or behavior intervention plan addresses a particular behavior, it generally would be inappropriate to utilize some other response, such as suspension, to that behavior.

5. What must a school district do when removing a child with a disability from his or her current placement for the eleventh cumulative day in a school year?

Beginning on the eleventh cumulative day in a school year that a child with a disability is removed from his or her current placement, the school district must provide those services that school personnel (for example, the school administrator or other appropriate school personnel) in consultation with the child's special education teacher determine to be necessary to enable the child to appropriately progress in the general curriculum and appropriately advance toward achieving the goals set out in the child's IEP. School personnel would determine where those services would be provided. This means that for the remainder of the removal that includes the eleventh day, and for any subsequent removals, services must be provided to the extent determined necessary, while the removal continues. §300.121(d)(2) and (3).

Not later than 10 business days after removing a child with a disability for more than 10 school days in a school year, the school district must convene an IEP team meeting to develop a behavioral assessment plan if the district has not already conducted a functional behavioral assessment and implemented a behavioral intervention plan for the child. If a child with a disability who is being removed for the eleventh cumulative school day in a school year already has a behavioral intervention plan, the school district must convene the IEP team (either before or not later than 10 business days after first removing the child for more than 10 school days in a school year) to review the plan and its implementation, and modify the plan and its implementation as necessary to address the behavior. §300.520(b).

A manifestation determination would not be required unless the removal that includes the eleventh cumulative school day of removal in a school year is a change of placement. §300.523(a).

6. Does the IDEA or its regulations mean that a child with a disability can never be suspended for more than 10 school days at a time or expelled for behavior that is not a manifestation of his or her disability?

No. If the IEP team concludes that the child's behavior was not a manifestation of the child's disability, the child can be disciplined in the same manner as nondisabled children, except that appropriate educational services must be provided. §300.524(a). This means that if nondisabled children are long-term suspended or expelled for a particular violation of school rules, the child with disabilities may also be long-term suspended or expelled. Educational services must be provided to the extent the child's IEP team determines necessary to enable the child to appropriately progress in the general curriculum and

appropriately advance toward the goals set out in the child's IEP.
§300.121(d)(2).

7. Does the statutory language “carries a weapon to school or to a school function” cover instances in which the child acquires a weapon at school?

Yes. Although the statutory language “carries a weapon to school or to a school function” could be viewed as ambiguous on this point, in light of the clear intent of Congress in the Act to expand the authority of school personnel to immediately address school weapons offenses, the Department’s opinion is that this language also covers instances in which the child is found to have a weapon that he or she obtained while at school.

Goals 2000: Educate America Act

The Goals 2000: Educate America Act (Goals 2000) focuses the Nation's education reform efforts on the eight National Education Goals and provides a framework for meeting them. Goals 2000 promotes new partnerships to strengthen schools and expands the Department's capacities for helping communities to exchange ideas and obtain information needed to achieve the goals.

These final regulations address the following National Education Goals:

- All children in America will start school ready to learn.
- The high school graduation rate will increase to at least 90 percent.
- All students will leave grades 4, 8, and 12 having demonstrated competency in challenging subject matter, including English, mathematics, science, foreign languages, civics and government, economics, arts, history, and geography; and every school in America will ensure that all students learn to use their minds well, so they may be prepared for responsible citizenship, further learning, and productive employment in our Nation's modern economy.
- United States students will be first in the world in mathematics and science achievement.
- Every adult American will be literate and will possess the knowledge and skills necessary to compete in a global economy and exercise the rights and responsibilities of citizenship.
- Every school in the United States will be free of drugs, violence, and the unauthorized presence of firearms and alcohol and will offer a disciplined environment conducive to learning.
- The Nation's teaching force will have access to programs for the continued improvement of their professional skills and the opportunity to acquire the knowledge and skills needed to instruct and prepare all American students for the next century.
- Every school will promote partnerships that will increase parental involvement and participation in promoting the social, emotional, and academic growth of

children.

Executive Order 12866

This is a significant regulatory action under section 3(f)(1) of Executive Order 12866 and, therefore, these final regulations have been reviewed by the Office of Management and Budget in accordance with that order. Because it has been determined that these regulations are economically significant under the order, the Department has conducted an economic analysis, which is provided in Attachment 2. This regulation has also been determined to be a major rule under the Small Business Regulatory Enforcement Fairness Act of 1996.

These final regulations implement changes made to the Individuals with Disabilities Education Act by the IDEA Amendments of 1997 and make other changes determined by the Secretary as necessary for administering this program effectively and efficiently.

The IDEA Amendments of 1997 made a number of significant changes to the law. While retaining the basic rights and protections that have been in the law since 1975, the amendments strengthened the focus of the law on improving results for children with disabilities. The amendments accomplished this through changes that promote the early identification of, and provision of services to, children with disabilities, the development of individualized education programs that enhance the participation of children with disabilities in the general curriculum, the education of children with disabilities with nondisabled children, higher expectations for children with disabilities and accountability for their educational results, the involvement of parents in their children's education, and reducing unnecessary paperwork and other burdens to better direct resources to improved teaching and learning.

All of these objectives are reflected in these final regulations, which largely reflect the changes to the statute made by IDEA Amendments of 1997.

In assessing the potential costs and benefits—both quantitative and qualitative—of these final regulations, the Secretary has determined that the benefits of these final regulations justify the costs.

The Secretary has also determined that this regulatory action does not unduly interfere with State, local, and tribal governments in the exercise of their governmental functions.

Paperwork Reduction Act of 1995

Sections 300.110, 300.121, 300.123-300.130, 300.133, 300.135-300.137, 300.141-300.145, 300.155-300.156, 300.180, 300.192, 300.220-300.221, 300.240, 300.280-300.281, 300.284, 300.341, 300.343, 300.345, 300.347, 300.380-300.382, 300.402, 300.482-300.483, 300.503-300.504, 300.506, 300.508, 300.510-300.511, 300.532, 300.535, 300.543, 300.561-300.563, 300.565, 300.569, 300.571-300.572, 300.574-300.575, 300.589, 300.600, 300.653, 300.660-300.662, 300.750-300.751, 300.754, 303.403, 303.510-303.512, and 303.520 contain information collection requirements. As required

by the Paperwork Reduction Act of 1995 (44 U.S.C. 3507(d)), the Department of Education has submitted a copy of these sections to the Office of Management and Budget (OMB) for its review.

Collection of Information: Assistance for Education of All Children with Disabilities: Complaint Procedures, §§300.600-300.662 and 303.510-303.512. Each SEA is required to adopt written procedures for resolving any complaint that meets the requirements in these proposed regulations.

Annual reporting and recordkeeping burden for this collection of information is estimated to average 10 hours to issue a written decision to a complaint. There is an estimated average annual total of 1079 complaints submitted for processing. Thus, the total annual reporting and recordkeeping burden for this collection is estimated to be 10,790 hours.

Collection of Information: Assistance for Education of All Children with Disabilities: State Eligibility, §§300.110, 300.121, 300.123-300.130, 300.133, 300.135-300.137, 300.141-300.145, 300.155-300.156, 300.280-300.281, 300.284, 300.380-300.382, 300.402, 300.482-300.483, 300.510-300.511, 300.589, 300.600, 300.653, 303.403, and 303.520. Each State must have on file with the Secretary policies and procedures to demonstrate to the satisfaction of the Secretary that the State meets the specified conditions for assistance under this part. In the past, States were required to submit State plans every three years with one-third of the entities submitting plans to the Secretary each year. With the new statute, States will no longer be required to submit State plans. Rather, the policies and procedures currently approved by, and on file with, the Secretary that are not inconsistent with the IDEA Amendments of 1997 will remain in effect unless amended.

Annual reporting and recordkeeping burden for this collection of information is estimated to average 30 hours for each response for 58 respondents, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Thus, the total annual reporting and recordkeeping burden for this collection is estimated to be 1740 hours.

Collection of Information: Assistance for Education of All Children with Disabilities: LEA Eligibility, §§300.180, 300.192, 300.220-300.221, 300.240, 300.341, 300.343, 300.345, 300.347, 500.503-300.504, 300.532, 300.535, 300.543, 300.561-300.563, 300.565, 300.569, 300.571-300.572, and 300.574-300.575. Each local educational agency (LEA) and each State agency must have on file with the State educational agency (SEA) information to demonstrate that the agency meets the specified requirements for assistance under this part. In the past, each LEA was required to submit a periodic application to the SEA in order to establish its eligibility for assistance under this part. Under the new statutory changes, LEAs are no longer required to submit such applications. Rather, the policies and procedures currently approved by, and on file with, the SEA that are not inconsistent with the IDEA Amendments of 1997 will remain in effect unless amended.

Annual reporting and recordkeeping burden for this collection of information is estimated to average 2 hours for each response for 15,376 respondents, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Thus, the total annual reporting and recordkeeping burden for this collection is estimated to be 30,752 hours. The Secretary invites comment on the estimated time it will take for LEAs to meet this reporting and recordkeeping requirement.

Collection of Information: Assistance for Education of All Children with Disabilities: List of Hearing Officers and Mediators, §§300.506 and 300.508. Each State must maintain a list of individuals who are qualified mediators and knowledgeable in laws and regulations relating to the provision of special education and related services. Each public agency must, also, keep a list of the persons who serve as hearing officers. Annual reporting and recordkeeping burden for this collection of information is estimated to average 25 hours for each response for 58 respondents, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Thus, the total annual reporting and recordkeeping burden for this collection is estimated to be 3050 hours.

Collection of Information: Assistance for Education of All Children with Disabilities: Report of Children and Youth with Disabilities Receiving Special Education, §§300.750-300.751, and 300.754. Each SEA must submit an annual report of children served.

Annual reporting and recordkeeping burden for this collection of information is estimated to average 262 hours for each response for 58 respondents, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Thus, the total annual reporting and recordkeeping burden for this collection is estimated to be 15,196 hours.

Organizations and individuals desiring to submit comments on the information collection requirements should direct them to the Office of Information and Regulatory Affairs, OMB, room 10235, New Executive Office Building, Washington, DC 20503; Attention: Desk Officer for U.S. Department of Education.

The Department considers comments by the public on these proposed collections of information in—

- Evaluating whether the proposed collections of information are necessary for the proper performance of the functions of the Department, including whether the information will have practical utility;
- Evaluating the accuracy of the Department's estimate of the burden of the proposed collections of information, including the validity of the methodology and assumptions used;

- Enhancing the quality, usefulness, and clarity of the information to be collected; and
- Minimizing the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology; e.g., permitting electronic submission of responses. OMB is required to make a decision concerning the collections of information contained in these proposed regulations between 30 and 60 days after publication of this document in the **Federal Register**. Therefore, a comment to OMB is best assured of having its full effect if OMB receives it within 30 days of publication. This does not affect the deadline for the public to comment to the Department on the proposed regulations.

Regulatory Flexibility Act Certification

The Secretary certifies that these final regulations will not have a significant economic impact on a substantial number of small entities. The small entities that would be affected by these regulations are small local educational agencies receiving Federal funds under this program. These regulations would not have a significant economic impact on the small LEAs affected because these regulations impose minimal requirements beyond those that would otherwise be required by the statute. In addition, increased costs imposed by these regulations on LEAs are expected to be offset by savings to be realized by LEAs.

Intergovernmental Review

This program is subject to the requirements of Executive Order 12372 and the regulations in 34 CFR part 79. The objective of the Executive order is to foster an intergovernmental partnership and a strengthened federalism by relying on processes developed by State and local governments for coordination and review of proposed Federal financial assistance.

In accordance with the order, this document is intended to provide early notification of the Department's specific plans and actions for this program.

Assessment of Educational Impact

In the NPRM published on October 22, 1997, the Secretary requested comments on whether the proposed regulations would require transmission of information that is being gathered by or is available from any other agency or authority of the United States.

Based on the response to the NPRM and on its own review, the Department has determined that the regulations in this document do not require transmission of information that is being gathered by or is available from any other agency or authority of the United States.

be a **child with a disability** under paragraph (a)(1) of this section.

The term includes impairments caused by congenital anomaly (e.g., clubfoot, absence of some member, etc.), impairments caused by disease (e.g., poliomyelitis, bone tuberculosis, etc.), and impairments from other causes (e.g., cerebral palsy, amputations, and fractures or burns that cause contractures).

(12) **Traumatic brain injury** means an acquired injury to the brain caused by an external physical force, resulting in total or partial functional disability or psychosocial impairment, or both, that adversely affects a child's educational performance. The term applies to open or closed head injuries resulting in impairments in one or more areas, such as cognition; language; memory; attention; reasoning; abstract thinking; judgment; problem-solving; sensory, perceptual, and motor abilities; psychosocial behavior; physical functions; information processing; and speech. (ii) On alternate assessments (not later than July 1, 2000).

(b) **Combined reports.** Reports to the public under paragraph (a) of this section must include—

§300.142 Methods of ensuring services.

(a) Establishing responsibility for services. The Chief Executive Officer or designee of that officer shall ensure that an interagency agreement or other mechanism for interagency coordination is in effect between each noneducational public agency described in paragraph (b) of this section and the SEA, in order to ensure that all services described in paragraph (b)(1) of this section that are needed to ensure FAPE are provided, including the provision of these services during the pendency of any dispute under paragraph (a)(3) of this section. The agreement or mechanism must include the following:

- (1) Agency financial responsibility. An identification of, or a method for defining, the financial responsibility of each agency for providing services described in paragraph (b)(1) of this section to ensure FAPE to children with disabilities. The financial responsibility of each noneducational public agency described in paragraph (b) of this section, including the State Medicaid agency and other public insurers of children with disabilities, must precede the financial responsibility of the LEA (or the State agency responsible for developing the child's IEP).
- (2) Conditions and terms of reimbursement. The conditions, terms, and

procedures under which an LEA must be reimbursed by other agencies.

(3) Interagency disputes. Procedures for resolving interagency disputes (including procedures under which LEAs may initiate proceedings) under the agreement or other mechanism to secure reimbursement from other agencies or otherwise implement the provisions of the agreement or mechanism.

(4) Coordination of services procedures. Policies and procedures for agencies to determine and identify the interagency coordination responsibilities of each agency to promote the coordination and timely and appropriate delivery of services described in paragraph (b)(1) of this section.

(b) Obligation of noneducational public agencies.

(1) General.

(i) If any public agency other than an educational agency is otherwise obligated under Federal or State law, or assigned responsibility under State policy or pursuant to paragraph (a) of this section, to provide or pay for any services that are also considered special education or related services (such as, but not limited to, services described in §300.5 relating to assistive technology devices, §300.6 relating to assistive technology services, §300.24 relating to related services, §300.28 relating to supplementary aids and services, and §300.29 relating to transition services) that are necessary for ensuring FAPE to children with disabilities within the State, the public agency shall fulfill that obligation or responsibility, either directly or through contract or other arrangement.

(ii) A noneducational public agency described in paragraph (b)(1)(i) of this section may not disqualify an eligible service for Medicaid reimbursement because that service is provided in a school context.

(2) Reimbursement for services by noneducational public agency. If a public agency other than an educational agency fails to provide or pay for the special education and related services described in paragraph (b)(1) of this section, the LEA (or State agency responsible for developing the child's IEP) shall provide or pay for these services to the child in a timely manner. The LEA or State agency may then claim reimbursement for the services from the noneducational public agency that failed to provide or pay for these services and that agency shall reimburse the LEA or State agency in accordance with the terms of the interagency agreement or other mechanism described in paragraph (a)(1) of this section, and the agreement described in paragraph (a)(2) of this section.

(c) Special rule. The requirements of paragraph (a) of this section may be met through—

(1) State statute or regulation;

- (2) Signed agreements between respective agency officials that clearly identify the responsibilities of each agency relating to the provision of services; or
 - (3) Other appropriate written methods as determined by the Chief Executive Officer of the State or designee of that officer.
- (d) Information. The State must have on file with the Secretary information to demonstrate that the requirements of paragraphs (a) through (c) of this section are met.
- (e) Children with disabilities who are covered by public insurance.
 - (1) A public agency may use the Medicaid or other public insurance benefits programs in which a child participates to provide or pay for services required under this part, as permitted under the public insurance program, except as provided in paragraph (e)(2) of this section.
 - (2) With regard to services required to provide FAPE to an eligible child under this part, the public agency—
 - (i) May not require parents to sign up for or enroll in public insurance programs in order for their child to receive FAPE under Part B of the Act;
 - (ii) May not require parents to incur an out-of-pocket expense such as the payment of a deductible or co-pay amount incurred in filing a claim for services provided pursuant to this part, but pursuant to paragraph (g)(2) of this section, may pay the cost that the parent otherwise would be required to pay; and
 - (iii) May not use a child's benefits under a public insurance program if that use would—
 - (A) Decrease available lifetime coverage or any other insured benefit;
 - (B) Result in the family paying for services that would otherwise be covered by the public insurance program and that are required for the child outside of the time the child is in school;
 - (C) Increase premiums or lead to the discontinuation of insurance; or
 - (D) Risk loss of eligibility for home and community-based waivers, based on aggregate health-related expenditures.
- (f) Children with disabilities who are covered by private insurance.
 - (1) With regard to services required to provide FAPE to an eligible child under this part, a public agency may access a parent's private insurance proceeds only if the parent provides informed consent consistent with §300.500(b)(1).

(2) Each time the public agency proposes to access the parent's private insurance proceeds, it must—

- (i) Obtain parent consent in accordance with paragraph (f)(1) of this section; and
- (ii) Inform the parents that their refusal to permit the public agency to access their private insurance does not relieve the public agency of its responsibility to ensure that all required services are provided at no cost to the parents.

(g) Use of Part B funds.

(1) If a public agency is unable to obtain parental consent to use the parent's private insurance, or public insurance when the parent would incur a cost for a specified service required under this part, to ensure FAPE the public agency may use its Part B funds to pay for the service.

(2) To avoid financial cost to parents who otherwise would consent to use private insurance, or public insurance if the parent would incur a cost, the public agency may use its Part B funds to pay the cost the parents otherwise would have to pay to use the parent's insurance (e.g., the deductible or co-pay amounts).

(h) Proceeds from public or private insurance.

(1) Proceeds from public or private insurance will not be treated as program income for purposes of 34 CFR 80.25.

(2) If a public agency spends reimbursements from Federal funds (e.g., Medicaid) for services under this part, those funds will not be considered "State or local" funds for purposes of the maintenance of effort provisions in §§300.154 and 300.231.

(i) Construction. Nothing in this part should be construed to alter the requirements imposed on a State Medicaid agency, or any other agency administering a public insurance program by Federal statute, regulations or policy under title XIX, or title XXI of the Social Security Act, or any other public insurance program.

- (1) Among LEAs in the State; or
- (2) Compared to the rates for nondisabled children within the agencies.

(b) **Review and revision of policies.** If the discrepancies described in paragraph (a) of this section are occurring, the SEA reviews and, if appropriate, revises (or requires the affected State agency or LEA to revise) its policies, procedures, and practices relating to the development and implementation of IEPs, the use of behavioral interventions, and procedural safeguards, to ensure that these policies, procedures, and practices comply with the Act.

§300.153 State-level nonsupplanting.

(a) **General.**

(1) Except as provided in §300.230, funds paid to a State under Part B of the Act must be used to supplement the level of Federal, State, and local funds (including funds that are not under the direct control of the SEA or LEAs) expended for special education and related services provided to children with disabilities under Part B of the Act and in no case to supplant these Federal, State, and local funds.

(2) The State must have on file with the Secretary information to demonstrate to the satisfaction of the Secretary that the requirements of paragraph (a)(1) of this section are met.

(b) **Waiver.** If the State provides clear and convincing evidence that all children with disabilities have available to them FAPE, the Secretary may waive, in whole or in part, the requirements of paragraph (a) of this section if the Secretary concurs with the evidence provided by the State under §300.589.

(b) **Reduction of funds for failure to maintain support.** The Secretary reduces the allocation of funds under section 611 of the Act for any fiscal year following the fiscal year in which the State fails to comply with the requirement of paragraph (a) of this section by the same amount by which the State fails to meet the requirement.

(c) **Waivers for exceptional or uncontrollable circumstances.** The Secretary may waive the requirement of paragraph (a) of this section for a State, for one fiscal year at a time, if the Secretary determines that -

(1) Granting a waiver would be equitable due to exceptional or uncontrollable circumstances such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the State; or

(2) The State meets the standard in §300.589 for a waiver of the requirement to supplement, and not to supplant, funds received under Part B of the Act.

(d) **Subsequent years.** If, for any fiscal year, a State fails to meet the requirement of paragraph (a) of this section, including any year for which the State is granted a waiver under paragraph (c) of this section, the financial support required of the State in future years under paragraph (a) of this section

(Authority: 20 U.S.C. 1413(a))

§300.181 Exception for prior LEA or State agency policies and procedures on file with the SEA.

If an LEA or a State agency described in §300.194 has on file with the SEA policies and procedures that demonstrate that the LEA or State agency meets any requirement of §300.180, including any policies and procedures filed under Part B of the Act as in effect before June 4, 1997, the SEA shall consider the LEA or State agency to have met the requirement for purposes of receiving assistance under Part B of the Act.

(Authority: 20 U.S.C. 1413(b)(1))

§300.182 Amendments to LEA policies and procedures.

- (a) Modification made by an LEA or a State agency.
 - (1) Subject to paragraph (b) of this section, policies and procedures submitted by an LEA or a State agency in accordance with this subpart remain in effect until it submits to the SEA the modifications that the LEA or State agency decides are necessary.
 - (2) The provisions of this subpart apply to a modification to an LEA's or State agency's policies and procedures in the same manner and to the same extent that they apply to the LEA's or State agency's original policies and procedures.
- (b) Modifications required by the SEA. The SEA may require an LEA or a State agency to modify its policies and procedures, but only to the extent necessary to ensure the LEA's or State agency's compliance with this part, if—

§300.184 Excess cost requirement.

- (a) **General.** Amounts provided to an LEA under Part B of the Act may be used only to pay the excess costs of providing special education and related services to children with disabilities.
- (b) **Definition.** As used in this part, the term **excess costs** means those costs that are in excess of the average annual per-student expenditure in an LEA during the preceding school year for an elementary or secondary school student, as may be appropriate. Excess costs must be computed after deducting—
 - (1) Amounts received—
 - (i) Under Part B of the Act;
 - (ii) Under Part A of title I of the Elementary and Secondary Education Act of 1965; or
 - (iii) Under Part A of title VII of that Act; and
 - (2) Any State or local funds expended for programs that would qualify for assistance under any of those parts.
- (c) **Limitation on use of Part B funds.**
 - (1) The excess cost requirement prevents an LEA from using funds

provided under Part B of the Act to pay for all of the costs directly attributable to the education of a child with a disability, subject to paragraph (c)(2) of this section.

(2) The excess cost requirement does not prevent an LEA from using Part B funds to pay for all of the costs directly attributable to the education of a child with a disability in any of the ages 3, 4, 5, 18, 19, 20, or 21, if no local or State funds are available for nondisabled children in that age range. However, the LEA must comply with the nonsupplanting and other requirements of this part in providing the education and services for these children.

§300.185 Meeting the excess cost requirement.

(a) (1) **General.** An LEA meets the excess cost requirement if it has spent at least a minimum average amount for the education of its children with disabilities before funds under Part B of the Act are used.

(2) The amount described in paragraph (a)(1) of this section is determined using the formula in §300.184(b). This amount may not include capital outlay or debt service.

(b) **Joint establishment of eligibility.** If two or more LEAs jointly establish eligibility in accordance with §300.190, the minimum average amount is the average of the combined minimum average amounts determined under §300.184 in those agencies for elementary or secondary school students, as the case may be.

(Authority: 20 U.S.C. 1413(a)(2)(A))

§§300.186—300.189 [Reserved]

§300.190 Joint establishment of eligibility.

(a) **General.** An SEA may require an LEA to establish its eligibility jointly with another LEA if the SEA determines that the LEA would be ineligible under this section because the agency would not be able to establish and maintain programs of sufficient size and scope to effectively meet the needs of children with disabilities.

(b) **Charter school exception.** An SEA may not require a charter school that is an LEA to jointly establish its eligibility under paragraph (a) of this section unless it is explicitly permitted to do so under the State's charter school statute.

(c) **Amount of payments.** If an SEA requires the joint establishment of eligibility under paragraph (a) of this section, the total amount of funds made available to the affected LEAs must be equal to the sum of the payments that each LEA would have received under §§300.711-300.714 if the agencies were eligible for these payments.

(Authority: 20 U.S.C. 1413(e)(1), and (2))

- (2) Be jointly responsible for implementing programs that receive assistance under Part B of the Act.

(b) Requirements for educational service agencies in general. If an educational service agency is required by State law to carry out programs under Part B of the Act, the joint responsibilities given to LEAs under Part B of the Act—

- (1) Do not apply to the administration and disbursement of any payments received by that educational service agency; and
- (2) Must be carried out only by that educational service agency.

(c) Additional requirement. Notwithstanding any other provision of §§300.190-300.192, an educational service agency shall provide for the education of children with disabilities in the least restrictive environment, as required by §300.130.

- (b) **Notice requirement.** Any State agency or LEA in receipt of a notice described in paragraph (a) of this section shall, by means of public notice, take the measures necessary to bring the pendency of an action pursuant to this section to the attention of the public within the jurisdiction of the agency.
- (c) In carrying out its functions under this section, each SEA shall consider any decision resulting from a hearing under §§300.507-300.528 that is adverse to the LEA or State agency involved in the decision.

 - (2) An LEA that relies on paragraph (c)(1)(i) of this section for any fiscal year must ensure that the amount of local funds it budgets for the education of children with disabilities in that year is at least the same, either in total or per capita, as the amount it spent for that purpose in—

expelled from school.

(2) As a part of its obligation under paragraph (a)(1) of this section, each State must ensure that the requirements of §300.125 (to identify, locate, and evaluate all children with disabilities) are implemented by public agencies throughout the State.

(3) (i) The services provided to the child under this part address all of the child's identified special education and related services needs described in paragraph (a) of this section.

(ii) The services and placement needed by each child with a disability to receive FAPE must be based on the child's unique needs and not on the child's disability.

(b) **Exception for age ranges 3-5 and 18-21.** This paragraph provides the rules for applying the requirements in paragraph (a) of this section to children with disabilities aged 3, 4, 5, 18, 19, 20, and 21 within the State:

(2) If a public agency provides education to nondisabled children in any of these age groups, it must make FAPE available to at least a proportionate number of children with disabilities of the same age.

(3) If a public agency provides education to 50 percent or more of its children with disabilities in any disability category in any of these age groups, it must make FAPE available to all its children with disabilities of the same age who have that disability. This provision does not apply to children aged 3 through 5 for any fiscal year for which the State receives a grant under section 619(a)(1) of the Act.

(4) If a public agency provides education to a child with a disability in any of these age groups, it must make FAPE available to that child and provide that child and his or her parents all of the rights under Part B of the Act and this part.

(5) A State is not required to make FAPE available to a child with a disability in one of these age groups if—

(i) State law expressly prohibits, or does not authorize, the expenditure of public funds to provide education to nondisabled children in that age group; or

(ii) The requirement is inconsistent with a court order that governs the provision of free public education to children with disabilities in that State.

(c) **Children aged 3 through 21 on Indian reservations.** With the exception of children identified in §300.715(b) and (c), the SEA shall ensure that all of the

(iv) Consider the communication needs of the child, and in the case of a child who is deaf or hard of hearing, consider the child's language and communication needs, opportunities for direct communications with peers and professional personnel in the child's language and communication mode, academic level, and full range of needs, including opportunities for direct instruction in the child's language and communication mode; and

(v) Consider whether the child requires assistive technology devices and services.

(b) Review and Revision of IEP. In conducting a meeting to review, and, if appropriate, revise a child's IEP, the IEP team shall consider the factors described in paragraph (a) of this section.

Subpart E—Procedural Safeguards

Due Process Procedures for Parents and Children

§300.500 General responsibility of public agencies; definitions.

(a) **Responsibility of SEA and other public agencies.** Each SEA shall ensure that each public agency establishes, maintains, and implements procedural safeguards that meet the requirements of §§300.500-300.529.

(b) **Definitions of "consent," "evaluation," and "personally identifiable."** As used in this part—

(1) **Consent** means that—

(i) The parent has been fully informed of all information relevant to the activity for which consent is sought, in his or her native language, or other mode of communication;

(ii) The parent understands and agrees in writing to the carrying out of the activity for which his or her consent is sought, and the consent describes that activity and lists the records (if any) that will be released and to whom; and

(iii) (A) The parent understands that the granting of consent is voluntary on the part of the parent and may be revoked at anytime.

(B) If a parent revokes consent, that revocation is not retroactive (i.e., it does not negate an action that has occurred after the consent was given and before the consent was revoked).

(2) **Evaluation** means procedures used in accordance with §§300.530-300.536 to determine whether a child has a disability and the

nature and extent of the special education and related services that the child needs; and

(3) **Personally identifiable** means that information includes—

- (i) The name of the child, the child's parent, or other family member;
- (ii) The address of the child;
- (iii) A personal identifier, such as the child's social security number or student number; or
- (iv) A list of personal characteristics or other information that would make it possible to identify the child with reasonable certainty.

(Authority: 20 U.S.C. 1415(a))

§300.501 Opportunity to examine records; parent participation in meetings.

(a) **General.** The parents of a child with a disability must be afforded, in accordance with the procedures of §§300.562- 300.569, an opportunity to—

- (1) Inspect and review all education records with respect to—
 - (i) The identification, evaluation, and educational placement of the child; and
 - (ii) The provision of FAPE to the child; and
- (2) Participate in meetings with respect to—
 - (i) The identification, evaluation, and educational placement of the child; and
 - (ii) The provision of FAPE to the child.

(b) **Parent participation in meetings.**

- (1) Each public agency shall provide notice consistent with §300.345(a)(1) and (b)(1) to ensure that parents of children with disabilities have the opportunity to participate in meetings described in paragraph (a)(2) of this section.
- (2) A meeting does not include informal or unscheduled conversations involving public agency personnel and conversations on issues such as teaching methodology, lesson plans, or coordination of service provision if those issues are not addressed in the child's IEP. A meeting also does not include preparatory activities that public agency personnel engage in to develop a proposal or response to a parent proposal that will be discussed at a later meeting.

(c) **Parent involvement in placement decisions.**

- (1) Each public agency shall ensure that the parents of each child with a disability are members of any group that makes decisions on the educational placement of their child.

(2) In implementing the requirements of paragraph (c)(1) of this section, the public agency shall use procedures consistent with the procedures described in §300.345(a) through (b)(1).

(3) If neither parent can participate in a meeting in which a decision is to be made relating to the educational placement of their child, the public agency shall use other methods to ensure their participation, including individual or conference telephone calls, or video conferencing.

(4) A placement decision may be made by a group without the involvement of the parents, if the public agency is unable to obtain the parents' participation in the decision. In this case, the public agency must have a record of its attempt to ensure their involvement, including information that is consistent with the requirements of §300.345(d).

(5) The public agency shall make reasonable efforts to ensure that the parents understand, and are able to participate in, any group discussions relating to the educational placement of their child, including arranging for an interpreter for parents with deafness, or whose native language is other than English.

(Authority: 20 U.S.C. 1414(f), 1415(b)(1))

§300.502 Independent educational evaluation.

(a) General.

(1) The parents of a child with a disability have the right under this part to obtain an independent educational evaluation of the child, subject to paragraphs (b) through (e) of this section.

(2) Each public agency shall provide to parents, upon request for an independent educational evaluation, information about where an independent educational evaluation may be obtained, and the agency criteria applicable for independent educational evaluations as set forth in paragraph (e) of this section.

(3) For the purposes of this part—

(i) **Independent educational evaluation** means an evaluation conducted by a qualified examiner who is not employed by the public agency responsible for the education of the child in question; and

(ii) **Public expense** means that the public agency either pays for the full cost of the evaluation or ensures that the evaluation is otherwise provided at no cost to the parent, consistent with §300.301.

(b) Parent right to evaluation at public expense.

(1) A parent has the right to an independent educational evaluation at public expense if the parent disagrees with an evaluation obtained by the

public agency.

(2) If a parent requests an independent educational evaluation at public expense, the public agency must, without unnecessary delay, either—

(i) Initiate a hearing under §300.507 to show that its evaluation is appropriate; or

(ii) Ensure that an independent educational evaluation is provided at public expense, unless the agency demonstrates in a hearing under §300.507 that the evaluation obtained by the parent did not meet agency criteria.

(3) If the public agency initiates a hearing and the final decision is that the agency's evaluation is appropriate, the parent still has the right to an independent educational evaluation, but not at public expense.

(4) If a parent requests an independent educational evaluation, the public agency may ask for the parent's reason why he or she objects to the public evaluation. However, the explanation by the parent may not be required and the public agency may not unreasonably delay either providing the independent educational evaluation at public expense or initiating a due process hearing to defend the public evaluation.

(c) **Parent-initiated evaluations.** If the parent obtains an independent educational evaluation at private expense, the results of the evaluation—

(1) Must be considered by the public agency, if it meets agency criteria, in any decision made with respect to the provision of FAPE to the child; and

(2) May be presented as evidence at a hearing under this subpart regarding that child.

(d) **Requests for evaluations by hearing officers.** If a hearing officer requests an independent educational evaluation as part of a hearing, the cost of the evaluation must be at public expense.

(e) **Agency criteria.**

(1) If an independent educational evaluation is at public expense, the criteria under which the evaluation is obtained, including the location of the evaluation and the qualifications of the examiner, must be the same as the criteria that the public agency uses when it initiates an evaluation, to the extent those criteria are consistent with the parent's right to an independent educational evaluation.

(2) Except for the criteria described in paragraph (e)(1) of this section, a public agency may not impose conditions or timelines related to obtaining an independent educational evaluation at public expense.

(Authority: 20 U.S.C. 1415(b)(1))

§300.503 Prior notice by the public agency; content of notice.

(a) Notice.

(1) Written notice that meets the requirements of paragraph (b) of this section must be given to the parents of a child with a disability a reasonable time before the public agency—

(i) Proposes to initiate or change the identification, evaluation, or educational placement of the child or the provision of FAPE to the child; or

(ii) Refuses to initiate or change the identification, evaluation, or educational placement of the child or the provision of FAPE to the child.

(2) If the notice described under paragraph (a)(1) of this section relates to an action proposed by the public agency that also requires parental consent under §300.505, the agency may give notice at the same time it requests parent consent.

(b) Content of notice. The notice required under paragraph (a) of this section must include—

(5) A description of any other factors that are relevant to the agency's proposal or refusal;

(6) A statement that the parents of a child with a disability have protection under the procedural safeguards of this part and, if this notice is not an initial referral for evaluation, the means by which a copy of a description of the procedural safeguards can be obtained; and

(7) Sources for parents to contact to obtain assistance in understanding the provisions of this part.

(c) Notice in understandable language.

(1) The notice required under paragraph (a) of this section must be—

(i) Written in language understandable to the general public; and

(ii) Provided in the native language of the parent or other mode of communication used by the parent, unless it is clearly not feasible to do so.

(2) If the native language or other mode of communication of the parent is

not a written language, the public agency shall take steps to ensure—

- (i) That the notice is translated orally or by other means to the parent in his or her native language or other mode of communication;
- (ii) That the parent understands the content of the notice; and
- (iii) That there is written evidence that the requirements in paragraphs (c)(2)(i) and (ii) of this section have been met.

(Authority: 20 U.S.C. 1415(b)(3), (4) and (c), 1414(b)(1))

(Authority: 20 U.S.C. 1415(d))

§300.505 Parental consent.

(a) **General.**

(1) Subject to paragraphs (a)(3), (b) and (c) of this section, informed parent consent must be obtained before—

- (i) Conducting an initial evaluation or reevaluation; and
- (ii) Initial provision of special education and related services to a child with a disability.

(2) Consent for initial evaluation may not be construed as consent for initial placement described in paragraph (a)(1)(ii) of this section.

(3) Parental consent is not required before—

- (i) Reviewing existing data as part of an evaluation or a reevaluation; or
- (ii) Administering a test or other evaluation that is administered to all children unless, before administration of that test or evaluation, consent is required of parents of all children.

(b) **Refusal.** If the parents of a child with a disability refuse consent for initial evaluation or a reevaluation, the agency may continue to pursue those evaluations by using the due process procedures under §§300.507-300.509, or the mediation procedures under §300.506 if appropriate, except to the extent inconsistent with State law relating to parental consent.

(c) **Failure to respond to request for reevaluation.**

(1) Informed parental consent need not be obtained for reevaluation if the public agency can demonstrate that it has taken reasonable measures to obtain that consent, and the child's parent has failed to respond.

(2) To meet the reasonable measures requirement in paragraph (c)(1) of this section, the public agency must use procedures consistent with those in §300.345(d).

(d) **Additional State consent requirements.** In addition to the parental consent requirements described in paragraph (a) of this section, a State may require parental consent for other services and activities under this part if it ensures that each public agency in the State establishes and implements effective procedures to ensure that a parent's refusal to consent does not result in a failure to provide the child with FAPE.

(e) **Limitation.** A public agency may not use a parent's refusal to consent to one service or activity under paragraphs (a) and (d) of this section to deny the parent or child any other service, benefit, or activity of the public agency, except as required by this part.

(Authority: 20 U.S.C. 1415(b)(3); 1414(a)(1)(C) and (c)(3))

§300.506 Mediation.

(a) **General.** Each public agency shall ensure that procedures are established and implemented to allow parties to disputes involving any matter described in §300.503(a)(1) to resolve the disputes through a mediation process that, at a minimum, must be available whenever a hearing is requested under §§300.507 or 300.520-300.528.

(b) **Requirements.** The procedures must meet the following requirements:

- (2)
 - (i) The State shall maintain a list of individuals who are qualified mediators and knowledgeable in laws and regulations relating to the provision of special education and related services.

 - (i) Who is under contract with a parent training and information center or community parent resource center in the State established under section 682 or 683 of the Act, or an appropriate alternative dispute resolution entity; and
 - (ii) Who would explain the benefits of the mediation process, and encourage the parents to use the process.
- (2) A public agency may not deny or delay a parent's right to a due process hearing under §300.507 if the parent fails to participate in the meeting described in paragraph (d)(1) of this section.

- (b)
 - (1) Funds under Part B of the Act may not be used to pay attorneys' fees or costs of a party related to an action or proceeding under section 615 of the Act and subpart E of this part.

- (c) A court awards reasonable attorney's fees under section 615(i)(3) of the Act consistent with the following:
 - (1) **Determination of amount of attorneys' fees.** Fees awarded under section 615(i)(3) of the Act must be based on rates prevailing in the community in which the action or proceeding arose for the kind and quality of services furnished. No bonus or multiplier may be used in calculating the fees awarded under this subsection.
 - (2) **Prohibition of attorneys' fees and related costs for certain services.**
 - (i) Attorneys' fees may not be awarded and related costs may not be reimbursed in any action or proceeding under section 615 of the Act for services performed subsequent to the time of a written offer of settlement to a parent if—

 - (C) The court or administrative hearing officer finds that the relief finally obtained by the parents is not more favorable to the parents than the offer of settlement.
 - (ii) Attorneys' fees may not be awarded relating to any meeting of the IEP team unless the meeting is convened as a result of an administrative proceeding or judicial action, or at the discretion of the State, for a mediation described in §300.506 that is conducted prior to the filing of a request for due process under §§300.507 or 300.520-300.528.
 - (3) **Exception to prohibition on attorneys' fees and related costs.** Notwithstanding paragraph (c)(2) of this section, an award of attorneys' fees and related costs may be made to a parent who is the prevailing party and who was substantially justified in rejecting the settlement offer.

(4) **Reduction of amount of attorneys' fees.** Except as provided in paragraph (c)(5) of this section, the court reduces, accordingly, the amount of the attorneys' fees awarded under section 615 of the Act, if the court finds that—

- (i) The parent, during the course of the action or proceeding, unreasonably protracted the final resolution of the controversy;
- (ii) The amount of the attorneys' fees otherwise authorized to be awarded unreasonably exceeds the hourly rate prevailing in the community for similar services by attorneys of reasonably comparable skill, reputation, and experience;
- (iii) The time spent and legal services furnished were excessive considering the nature of the action or proceeding; or
- (iv) the attorney representing the parent did not provide to the school district the appropriate information in the due process complaint in accordance with §300.507(c).

(5) **Exception to reduction in amount of attorneys' fees.** The provisions of paragraph (c)(4) of this section do not apply in any action or proceeding if the court finds that the State or local agency unreasonably protracted the final resolution of the action or proceeding or there was a violation of section 615 of the Act.

(a) Except as provided in §300.526, during the pendency of any administrative or judicial proceeding regarding a complaint under §300.507, unless the State or local agency and the parents of the child agree otherwise, the child involved in the complaint must remain in his or her current educational placement.

(b) If the complaint involves an application for initial admission to public school, the child, with the consent of the parents, must be placed in the public school until the completion of all the proceedings.

(c) If the decision of a hearing officer in a due process hearing conducted by the SEA or a State review official in an administrative appeal agrees with the child's parents that a

change of placement is appropriate, that placement must be treated as an agreement between the State or local agency and the parents for purposes of paragraph (a) of this section.

(d) **Non-employee requirement; compensation.** A person who otherwise qualifies to be a surrogate parent under paragraph (c) of this section is not an employee of the agency solely because he or she is paid by the agency to serve as a surrogate parent.

(e) **Responsibilities.** The surrogate parent may represent the child in all matters relating to—

- (1) The identification, evaluation, and educational placement of the child; and

Discipline Procedures

§300.519 Change of placement for disciplinary removals.

For purposes of removals of a child with a disability from the child's current educational placement under §§300.520-300.529, a change of placement occurs if—

- (a) The removal is for more than 10 consecutive school days; or
- (b) The child is subjected to a series of removals that constitute a pattern because they cumulate to more than 10 school days in a school year, and because of factors such as the length of each removal, the total amount of time the child is removed, and the proximity of the removals to one another.

(Authority: 20 U.S.C. 1415(k))

§300.520 Authority of school personnel.

- (a) School personnel may order—
 - (1)
 - (i) To the extent removal would be applied to children without disabilities, the removal of a child with a disability from the child's current placement for not more than 10 consecutive school days for any violation of school rules, and additional removals of not more

than 10 consecutive school days in that same school year for separate incidents of misconduct (as long as those removals do not constitute a change of placement under §300.519(b));

(ii) After a child with a disability has been removed from his or her current placement for more than 10 school days in the same school year, during any subsequent days of removal the public agency must provide services to the extent required under §300.121(d); and

(2) A change in placement of a child with a disability to an appropriate interim alternative educational setting for the same amount of time that a child without a disability would be subject to discipline, but for not more than 45 days, if -

(ii) The child knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school or a school function under the jurisdiction of a State or local educational agency.

(i) If the LEA did not conduct a functional behavioral assessment and implement a behavioral intervention plan for the child before the behavior that resulted in the removal described in paragraph (a) of this section, the agency shall convene an IEP meeting to develop an assessment plan.

(ii) If the child already has a behavioral intervention plan, the IEP team shall meet to review the plan and its implementation, and, modify the plan and its implementation as necessary, to address the behavior.

(2) As soon as practicable after developing the plan described in paragraph (b)(1)(i) of this section, and completing the assessments required by the plan, the LEA shall convene an IEP meeting to develop appropriate behavioral interventions to address that behavior and shall implement those interventions.

(c) (1) If subsequently, a child with a disability who has a behavioral intervention plan and who has been removed from the child's current educational placement for more than 10 school days in a school year is subjected to a removal that does not constitute a change of placement under §300.519, the IEP team members shall review the behavioral intervention plan and its implementation to determine if modifications are

necessary.

(2) If one or more of the team members believe that modifications are needed, the team shall meet to modify the plan and its implementation, to the extent the team determines necessary.

(d) For purposes of this section, the following definitions apply:

(a) Determines that the public agency has demonstrated by substantial evidence that maintaining the current placement of the child is substantially likely to result in injury to the child or to others;

(b) Considers the appropriateness of the child's current placement;

(c) Considers whether the public agency has made reasonable efforts to minimize the risk of harm in the child's current placement, including the use of supplementary aids and services; and

(d) Determines that the interim alternative educational setting that is proposed by school personnel who have consulted with the child's special education teacher, meets the requirements of §300.522(b).

(e) As used in this section, the term **substantial evidence** means beyond a preponderance of the evidence.

(b) **Additional requirements.** Any interim alternative educational setting in which a child is placed under §§300.520(a)(2) or 300.521 must—

(1) Be selected so as to enable the child to continue to progress in the general curriculum, although in another setting, and to continue to receive those services and modifications, including those described in the child's current IEP, that will enable the child to meet the goals set out in that IEP; and

(2) Include services and modifications to address the behavior described in §§300.520(a)(2) or 300.521, that are designed to prevent the behavior from recurring.

§300.523 Manifestation determination review.

(a) **General.** If an action is contemplated regarding behavior described in §§300.520(a)(2) or 300.521, or involving a removal that constitutes a change of placement under §300.519 for a child with a disability who has engaged in other behavior that violated any rule or code of conduct of the LEA that applies to all children—

(1) Not later than the date on which the decision to take that action is made, the parents must be notified of that decision and provided the procedural safeguards notice described in §300.504; and

(b) **Individuals to carry out review.** A review described in paragraph (a) of this section must be conducted by the IEP team and other qualified personnel in a meeting.

(c) **Conduct of review.** In carrying out a review described in paragraph (a) of this section, the IEP team and other qualified personnel may determine that the behavior of the child was not a manifestation of the child's disability only if the IEP team and other qualified personnel -

(1) First consider, in terms of the behavior subject to disciplinary action, all relevant information, including -

(i) Evaluation and diagnostic results, including the results or other relevant information supplied by the parents of the child;

(ii) Observations of the child; and

(iii) The child's IEP and placement; and

(2) Then determine that -

(i) In relationship to the behavior subject to disciplinary action, the child's IEP and placement were appropriate and the special education services, supplementary aids and services, and behavior intervention strategies were provided consistent with the child's IEP and placement;

(ii) The child's disability did not impair the ability of the child to understand the impact and consequences of the behavior subject to disciplinary action; and

(iii) The child's disability did not impair the ability of the child to control the behavior subject to disciplinary action.

(d) **Decision.** If the IEP team and other qualified personnel determine that any of the standards in paragraph (c)(2) of this section were not met, the behavior must be considered a manifestation of the child's disability.

(e) **Meeting.** The review described in paragraph (a) of this section may be conducted at the same IEP meeting that is convened under §300.520(b).

(f) **Deficiencies in IEP or placement.** If, in the review in paragraphs (b) and (c) of this section, a public agency identifies deficiencies in the child's IEP or placement or in their implementation, it must take immediate steps to remedy those deficiencies.

§300.524 Determination that behavior was not manifestation of disability.

(a) **General.** If the result of the review described in §300.523 is a determination, consistent with §300.523(d), that the behavior of the child with a disability was not a manifestation of the child's disability, the relevant disciplinary procedures applicable to children without disabilities may be applied to the child in the same manner in which they would be applied to children without disabilities, except as provided in §300.121(d).

(b) **Additional requirement.** If the public agency initiates disciplinary procedures applicable to all children, the agency shall ensure that the special education and disciplinary records of the child with a disability are transmitted for consideration by the person or persons making the final determination regarding the disciplinary action.

(c) **Child's status during due process proceedings.** Except as provided in §300.526, §300.514 applies if a parent requests a hearing to challenge a determination, made through the review described in §300.523, that the behavior of the child was not a manifestation of the child's disability.

§300.525 Parent appeal.

(a) **General.**

(1) If the child's parent disagrees with a determination that the child's

(2) The State or local educational agency shall arrange for an expedited hearing in any case described in paragraph (a)(1) of this section if a hearing is requested by a parent.

(b) Review of decision.

(1) In reviewing a decision with respect to the manifestation determination, the hearing officer shall determine whether the public agency has demonstrated that the child's behavior was not a manifestation of the child's disability consistent with the requirements of §300.523(d).

(2) In reviewing a decision under §300.520(a)(2) to place the child in an interim alternative educational setting, the hearing officer shall apply the standards in §300.521.

(Authority: 20 U.S.C. 1415(k)(6))

§300.526 Placement during appeals.

(a) **General.** If a parent requests a hearing or an appeal regarding a disciplinary action described in §300.520(a)(2) or 300.521 to challenge the interim alternative educational setting or the manifestation determination, the child must remain in the interim alternative educational setting pending the decision of the hearing officer or until the expiration of the time period provided for in §300.520(a)(2) or 300.521, whichever occurs first, unless the parent and the State agency or local educational agency agree otherwise.

(b) **Current placement.** If a child is placed in an interim alternative educational setting pursuant to §300.520(a)(2) or 300.521 and school personnel propose to change the child's placement after expiration of the interim alternative placement, during the pendency of any proceeding to challenge the proposed change in placement the child must remain in the current placement (the child's placement prior to the interim alternative educational setting), except as provided in paragraph (c) of this section.

(c) Expedited hearing.

(1) If school personnel maintain that it is dangerous for the child to be in the current placement (placement prior to removal to the interim alternative education setting) during the pendency of the due process proceedings, the LEA may request an expedited due process hearing.

(2) In determining whether the child may be placed in the alternative educational setting or in another appropriate placement ordered by the hearing officer, the hearing officer shall apply the standards in §300.521.

(3) A placement ordered pursuant to paragraph (c)(2) of this section may not be longer than 45 days.

(4) The procedure in paragraph (c) of this section may be repeated, as necessary.

§300.527 Protections for children not yet eligible for special education and related services.

(a) **General.** A child who has not been determined to be eligible for special education and related services under this part and who has engaged in behavior that violated any rule or code of conduct of the local educational agency, including any behavior described in §§300.520 or 300.521, may assert any of the protections provided for in this part if the LEA had knowledge (as determined in accordance with paragraph (b) of this section) that the child was a child with a disability before the behavior that precipitated the disciplinary action occurred.

(b) **Basis of knowledge.** An LEA must be deemed to have knowledge that a child is a child with a disability if -

- (1) The parent of the child has expressed concern in writing (or orally if the parent does not know how to write or has a disability that prevents a written statement) to personnel of the appropriate educational agency that the child is in need of special education and related services;
- (2) The behavior or performance of the child demonstrates the need for these services, in accordance with §300.7;
- (3) The parent of the child has requested an evaluation of the child pursuant to §§300.530-300.536; or
- (4) The teacher of the child, or other personnel of the local educational agency, has expressed concern about the behavior or performance of the child to the director of special education of the agency or to other personnel in accordance with the agency's established child find or special education referral system.

(c) **Exception.** A public agency would not be deemed to have knowledge under paragraph (b) of this section if, as a result of receiving the information specified in that paragraph, the agency—

- (1) Either—
 - (i) Conducted an evaluation under §§300.530-300.536, and determined that the child was not a child with a disability under this part; or
 - (ii) Determined that an evaluation was not necessary; and
- (2) Provided notice to the child's parents of its determination under paragraph (c)(1) of this section, consistent with §300.503.

(d) **Conditions that apply if no basis of knowledge.**

- (1) **General.** If an LEA does not have knowledge that a child is a child with a disability (in accordance with paragraphs (b) and (c) of this section)

prior to taking disciplinary measures against the child, the child may be subjected to the same disciplinary measures as measures applied to children without disabilities who engaged in comparable behaviors consistent with paragraph (d)(2) of this section.

(2) Limitations.

- (i) If a request is made for an evaluation of a child during the time period in which the child is subjected to disciplinary measures under §300.520 or 300.521, the evaluation must be conducted in an expedited manner.
- (ii) Until the evaluation is completed, the child remains in the educational placement determined by school authorities, which can include suspension or expulsion without educational services.
- (iii) If the child is determined to be a child with a disability, taking into consideration information from the evaluation conducted by the agency and information provided by the parents, the agency shall provide special education and related services in accordance with the provisions of this part, including the requirements of §§300.520-300.529 and section 612(a)(1)(A) of the Act.

 - (2) Be conducted by a due process hearing officer who satisfies the requirements of §300.508.
- (b) (1) Each State shall establish a timeline for expedited due process hearings that results in a written decision being mailed to the parties within 45 days of the public agency's receipt of the request for the hearing, without exceptions or extensions.
- (2) The timeline established under paragraph (b)(1) of this section must be the same for hearings requested by parents or public agencies.
- (c) A State may establish different procedural rules for expedited hearings under §§300.521-300.526 than it has established for due process hearings under §300.507.
- (d) The decisions on expedited due process hearings are appealable consistent with §300.510.

§300.529 Referral to and action by law enforcement and judicial authorities.

- (b)
 - (1) An agency reporting a crime committed by a child with a disability shall ensure that copies of the special education and disciplinary records of the child are transmitted for consideration by the appropriate authorities to whom it reports the crime.

Procedures For Evaluation And Determination Of Eligibility

§300.530 General.

Each SEA shall ensure that each public agency establishes and implements procedures that meet the requirements of §§300.531-300.536.

(Authority: 20 U.S.C. 1414(b)(3); 1412(a)(7))

§300.531 Initial evaluation.

Each public agency shall conduct a full and individual initial evaluation, in accordance with §§300.532 and 300.533, before the initial provision of special education and related services to a child with a disability under Part B of the Act.

(Authority: 20 U.S.C. 1414(a)(1))

§300.532 Evaluation procedures.

Each public agency shall ensure, at a minimum, that the following requirements are met:

- (a)
 - (1) Tests and other evaluation materials used to assess a child under Part B of the Act—
 - (i) Are selected and administered so as not to be discriminatory on a racial or cultural basis; and
 - (ii) Are provided and administered in the child's native language or other mode of communication, unless it is clearly not feasible to do so; and
 - (2) Materials and procedures used to assess a child with limited English proficiency are selected and administered to ensure that they measure the extent to which the child has a disability and needs special education,

rather than measuring the child's English language skills.

(b) A variety of assessment tools and strategies are used to gather relevant functional and developmental information about the child, including information provided by the parent, and information related to enabling the child to be involved in and progress in the general curriculum (or for a preschool child, to participate in appropriate activities), that may assist in determining—

(1) Whether the child is a child with a disability under §300.7; and

(2) The content of the child's IEP.

(c) (1) Any standardized tests that are given to a child—

(i) Have been validated for the specific purpose for which they are used; and

(ii) Are administered by trained and knowledgeable personnel in accordance with any instructions provided by the producer of the tests.

(2) If an assessment is not conducted under standard conditions, a description of the extent to which it varied from standard conditions (e.g., the qualifications of the person administering the test, or the method of test administration) must be included in the evaluation report.

(d) Tests and other evaluation materials include those tailored to assess specific areas of educational need and not merely those that are designed to provide a single general intelligence quotient.

(e) Tests are selected and administered so as best to ensure that if a test is administered to a child with impaired sensory, manual, or speaking skills, the test results accurately reflect the child's aptitude or achievement level or whatever other factors the test purports to measure, rather than reflecting the child's impaired sensory, manual, or speaking skills (unless those skills are the factors that the test purports to measure).

(f) No single procedure is used as the sole criterion for determining whether a child is a child with a disability and for determining an appropriate educational program for the child.

(g) The child is assessed in all areas related to the suspected disability, including, if appropriate, health, vision, hearing, social and emotional status, general intelligence, academic performance, communicative status, and motor abilities.

(h) In evaluating each child with a disability under §§300.531-300.536, the evaluation is sufficiently comprehensive to identify all of the child's special education and related services needs, whether or not commonly linked to the disability category in which the child has been classified.

(i) The public agency uses technically sound instruments that may assess the relative contribution of cognitive and behavioral factors, in addition to physical or developmental factors.

(j) The public agency uses assessment tools and strategies that provide relevant information that directly assists persons in determining the educational needs of the child.

§300.533 Determination of needed evaluation data.

(a) **Review of existing evaluation data.** As part of an initial evaluation (if appropriate) and as part of any reevaluation under Part B of the Act, a group that includes the individuals described in §300.344, and other qualified professionals, as appropriate, shall -

- (1) Review existing evaluation data on the child, including—
 - (i) Evaluations and information provided by the parents of the child;
 - (ii) Current classroom-based assessments and observations; and
 - (iii) Observations by teachers and related services providers; and
- (2) On the basis of that review, and input from the child's parents, identify what additional data, if any, are needed to determine -
 - (i) Whether the child has a particular category of disability, as described in §300.7, or, in case of a reevaluation of a child, whether the child continues to have such a disability;
 - (ii) The present levels of performance and educational needs of the child;
 - (iii) Whether the child needs special education and related services, or in the case of a reevaluation of a child, whether the child continues to need special education and related services; and
 - (iv) Whether any additions or modifications to the special education and related services are needed to enable the child to meet the measurable annual goals set out in the IEP of the child and to participate, as appropriate, in the general curriculum.

(b) **Conduct of review.** The group described in paragraph (a) of this section may conduct its review without a meeting.

(c) **Need for additional data.** The public agency shall administer tests and other evaluation materials as may be needed to produce the data identified under paragraph (a) of this section.

(d) **Requirements if additional data are not needed.**

- (1) If the determination under paragraph (a) of this section is that no additional data are needed to determine whether the child continues to be a child with a disability, the public agency shall notify the child's parents—
 - (i) Of that determination and the reasons for it; and
 - (ii) Of the right of the parents to request an assessment to

determine whether, for purposes of services under this part, the child continues to be a child with a disability.

(2) The public agency is not required to conduct the assessment described in paragraph (d)(1)(ii) of this section unless requested to do so by the child's parents.

(2) The public agency must provide a copy of the evaluation report and the documentation of determination of eligibility to the parent.

(b) A child may not be determined to be eligible under this part if—

(1) The determinant factor for that eligibility determination is—

(i) Lack of instruction in reading or math; or

(ii) Limited English proficiency ; and

(2) The child does not otherwise meet the eligibility criteria under §300.7(a).

(c) (1) A public agency must evaluate a child with a disability in accordance with §§300.532 and 300.533 before determining that the child is no longer a child with a disability.

(2) The evaluation described in paragraph (c)(1) of this section is not required before the termination of a student's eligibility under Part B of the Act due to graduation with a regular high school diploma, or exceeding the age eligibility for FAPE under State law.

(2) Ensure that information obtained from all of these sources is documented and carefully considered.

(b) If a determination is made that a child has a disability and needs special

education and related services, an IEP must be developed for the child in accordance with §§300.340-300.350.

- (a)
 - (1) The child's regular teacher; or
 - (2) If the child does not have a regular teacher, a regular classroom teacher qualified to teach a child of his or her age; or 3) For a child of less than school age, an individual qualified by the SEA to teach a child of his or her age; and

(4) Before withholding under paragraph (b)(1) of this section, the Secretary provides notice and a hearing pursuant to the procedures in §§300.581-300.586.

(d) Referral for appropriate enforcement.

(1) Before the Secretary makes a referral under paragraph (b)(2) of this section for enforcement, or takes any other enforcement action authorized by law under paragraph (b)(3), the Secretary provides the State—

(i) With reasonable notice; and

(ii) With an opportunity for an hearing.

(2) The hearing described in paragraph (d)(1)(ii) of this section consists of an opportunity to meet with the Assistant Secretary for the Office of Special Education and Rehabilitative Services to demonstrate why the Department should not make a referral for enforcement.

(e) Divided State agency responsibility. For purposes of this part, if responsibility for ensuring that the requirements of this part are met with respect to children with disabilities who are convicted as adults under State law and incarcerated in adult prisons is assigned to a public agency other than the SEA pursuant to §300.600(d), and if the Secretary finds that the failure to comply substantially with the provisions of Part B of the Act or this part are related to a failure by the public agency, the Secretary takes one of the enforcement actions described in paragraph (b) of this section to ensure compliance with Part B of the Act and this part, except—

(1) Any reduction or withholding of payments to the State under paragraph (b)(1) of this section is proportionate to the total funds allotted under section 611 of the Act to the State as the number of eligible children with disabilities in adult prisons under the supervision of the other public agency is proportionate to the number of eligible individuals with disabilities in the State under the supervision of the State educational agency; and

(2) Any withholding of funds under paragraph (e)(1) of this section is limited to the specific agency responsible for the failure to comply with Part B of the Act or this part.

(Authority: 20 U.S.C. 1416)

§§300.588 [Reserved]

§300.589 Waiver of requirement regarding supplementing and not supplanting with Part B funds.

(a) Except as provided under §§300.232-300.235, funds paid to a State under Part B of the Act must be used to supplement and increase the level of Federal, State, and local funds (including funds that are not under the direct control of

SEAs or LEAs) expended for special education and related services provided to children with disabilities under Part B of the Act and in no case to supplant those Federal, State, and local funds. A State may use funds it retains under §300.602 without regard to the prohibition on supplanting other funds (See §300.372).

(b) If a State provides clear and convincing evidence that all eligible children with disabilities throughout the State have FAPE available to them, the Secretary may waive for a period of one year in whole or in part the requirement under §300.153 (regarding State-level nonsupplanting) if the Secretary concurs with the evidence provided by the State.

(c) If a State wishes to request a waiver under this section, it must submit to the Secretary a written request that includes—

(1) An assurance that FAPE is currently available, and will remain available throughout the period that a waiver would be in effect, to all eligible children with disabilities throughout the State, regardless of the public agency that is responsible for providing FAPE to them. The assurance must be signed by an official who has the authority to provide that assurance as it applies to all eligible children with disabilities in the State;

(2) All evidence that the State wishes the Secretary to consider in determining whether all eligible children with disabilities have FAPE available to them, setting forth in detail—

(i) The basis on which the State has concluded that FAPE is available to all eligible children in the State; and

(ii) The procedures that the State will implement to ensure that FAPE remains available to all eligible children in the State, which must include—

(A) The State's procedures under §300.125 for ensuring that all eligible children are identified, located and evaluated;

(B) The State's procedures for monitoring public agencies to ensure that they comply with all requirements of this part;

(C) The State's complaint procedures under §§300.660-300.662; and

(D) The State's hearing procedures under §§300.507-300.511 and 300.520-300.528;

(3) A summary of all State and Federal monitoring reports, and State complaint decisions (see §§300.660-300.662) and hearing decisions (see §§300.507-300.511 and 300.520-300.528), issued within three years prior to the date of the State's request for a waiver under this section, that includes any finding that FAPE has not been available to one or more eligible children, and evidence that FAPE is now available to all children addressed in those reports or decisions; and

(4) Evidence that the State, in determining that FAPE is currently available to all eligible children with disabilities in the State, has consulted with the State advisory panel under §300.650, the State's parent training and information center or centers, the State's protection and advocacy organization, and other organizations representing the interests of children with disabilities and their parents, and a summary of the input of these organizations.

(d) If the Secretary determines that the request and supporting evidence submitted by the State makes a prima facie showing that FAPE is, and will remain, available to all eligible children with disabilities in the State, the Secretary, after notice to the public throughout the State, conducts a public hearing at which all interested persons and organizations may present evidence regarding the following issues:

(1) Whether FAPE is currently available to all eligible children with disabilities in the State.

(2) Whether the State will be able to ensure that FAPE remains available to all eligible children with disabilities in the State if the Secretary provides the requested waiver.

(e) Following the hearing, the Secretary, based on all submitted evidence, will provide a waiver, in whole or in part, for a period of one year if the Secretary finds that the State has provided clear and convincing evidence that FAPE is currently available to all eligible children with disabilities in the State, and the State will be able to ensure that FAPE remains available to all eligible children with disabilities in the State if the Secretary provides the requested waiver.

(f) A State may receive a waiver of the requirement of section 612(a)(19)(A) and §300.154(a) if it satisfies the requirements of paragraphs (b) through (e) of this section.

(g) The Secretary may grant subsequent waivers for a period of one year each, if the Secretary determines that the State has provided clear and convincing evidence that all eligible children with disabilities throughout the State have, and will continue to have throughout the one-year period of the waiver, FAPE available to them.

(b) **Interim formula.** Except as provided in §§300.706-300.709, the Secretary allocates the amount described in paragraph (a) of this section among the States in accordance with section 611(a)(3), (4), (5) and (b)(1), (2) and (3) of the Act, as in effect prior to June 4, 1997, except that the determination of the number of children with disabilities receiving special education and related services under section 611(a)(3) of the Act (as then in effect) may be calculated as of December 1, or, at the State's discretion, the last Friday in October, of the fiscal year for which the funds were appropriated.

(2) **Special rule for use of base year amount.** If a State received any funds under section 611 of the Act for the base year on the basis of children aged 3 through 5, but does not make FAPE available to all children with disabilities aged 3 through 5 in the State in any subsequent fiscal year, the Secretary computes the State's base year amount, solely for the purpose of calculating the State's allocation in that subsequent year under §§300.707-300.709, by subtracting the amount allocated to the State for the base year on the basis of those children.

(Authority: 20 U.S.C. 1411(e)(1) and (2))

§300.707 Increase in funds.

§300.709 Decrease in funds.

If the amount available for allocations to States under §300.706 is less than the amount allocated to the States under section 611 of the Act for the preceding fiscal year, those allocations are calculated as follows:

(a) If the amount available for allocations is greater than the amount allocated to the States for the base year, each State is allocated the sum of -

- (1) The amount it received for the base year; and
- (2) An amount that bears the same relation to any remaining funds as the increase the State received for the preceding fiscal year over the base year bears to the total of those increases for all States.

(b) (1) If the amount available for allocations is equal to or less than the amount allocated to the States for the base year, each State is allocated the amount it received for the base year.

- (2) If the amount available is insufficient to make the allocations described in paragraph (b)(1) of this section, those allocations are ratably reduced.

Each State that receives a grant under section 611 of the Act for any fiscal year shall distribute in accordance with §300.712 any funds it does not retain under §300.602 and is not required to distribute under §§300.622 and 300.623 to LEAs in the State that have established their eligibility under section 613 of the Act, and to State agencies that received funds under section 614A(a) of the Act for fiscal year 1997, as then in effect, and have established their eligibility under section 613 of the Act, for use in accordance with Part B of the Act.

(Authority: 20 U.S.C. 1411(g)(1))

§300.712 Allocations to LEAs.

(a) **Interim procedure.** For each fiscal year for which funds are allocated to States under §300.703(b) each State shall allocate funds under §300.711 in accordance with section 611(d) of the Act, as in effect prior to June 4, 1997.

(b) **Permanent procedure.** For each fiscal year for which funds are allocated to States under §§300.706-300.709, each State shall allocate funds under §300.711 as follows:

(1) **Base payments.** The State first shall award each agency described in §300.711 the amount that agency would have received under this section for the base year, as defined in §300.706(b)(1), if the State had distributed 75 percent of its grant for that year under section §300.703(b).

(2) **Base payment adjustments.** For any fiscal year after the base year fiscal year—

(i) If a new LEA is created, the State shall divide the base allocation determined under paragraph (b)(1) of this section for the LEAs that would have been responsible for serving children with disabilities now being served by the new LEA, among the new LEA and affected LEAs based on the relative numbers of children with disabilities ages 3 through 21, or ages 6 through 21 if a State has had its payment reduced under §300.706(b)(2), currently provided special education by each of the LEAs;

(ii) If one or more LEAs are combined into a single new LEA, the State shall combine the base allocations of the merged LEAs; and

(iii) If, for two or more LEAs, geographic boundaries or administrative responsibility for providing services to children with disabilities ages 3 through 21 change, the base allocations of affected LEAs shall be redistributed among affected LEAs based on the relative numbers of children with disabilities ages 3 through 21, or ages 6 through 21 if a State has had its payment reduced under §300.706(b)(2), currently provided special education by each affected LEA.

(3) **Allocation of remaining funds.** The State then shall -

- (i) Allocate 85 percent of any remaining funds to those agencies on the basis of the relative numbers of children enrolled in public and private elementary and secondary schools within each agency's jurisdiction; and
- (ii) Allocate 15 percent of those remaining funds to those agencies in accordance with their relative numbers of children living in poverty, as determined by the SEA.
- (iii) For the purposes of making grants under this section, States must apply on a uniform basis across all LEAs the best data that are available to them on the numbers of children enrolled in public and private elementary and secondary schools and the numbers of children living in poverty.

- (i) The number of children with disabilities, aged 6 through 21, to whom the agency was providing special education and related services on December 1, or, at the State's discretion, the last Friday in October, of the fiscal year for which the funds were appropriated, subject to the limitation in paragraph (b) of this section; multiplied by
- (ii) The per-child amount provided under that subpart for fiscal year 1994; and

(2) May use funds under §300.602(a) to ensure that each LEA that received fiscal year 1994 funds under that subpart for children who had transferred from a State-operated or State-supported school or program assisted under that subpart receives, from the combination of funds available under §300.602(a) and funds provided under §300.711, an amount for each child, aged 3 through 21 to whom the agency was providing special education and related services on December 1, or, at the State's discretion, the last Friday in October, of the fiscal year for which the funds were appropriated, equal to the per-child amount the agency received under that subpart for fiscal year 1994.

(b) The number of children counted under paragraph (a)(1)(i) of this section may

not exceed the number of children aged 3 through 21 for whom the agency received fiscal year 1994 funds under subpart 2 of Part D of chapter 1 of title I of the Elementary and Secondary Education Act of 1965 (as in effect in fiscal year 1994).

§300.714 Reallocation of LEA funds.

If an SEA determines that an LEA is adequately providing FAPE to all children with disabilities residing in the area served by that agency with State and local funds, the SEA may reallocate any portion of the funds under Part B of the Act that are not needed by that local agency to provide FAPE to other LEAs in the State that are not adequately providing special education and related services to all children with disabilities residing in the areas they serve.

Individualized Education Programs (IEPs) and Other Selected Implementation Issues

Interpretation of IEP and Other selected Requirements under. Part B of the Individuals with Disabilities Education Act (IDEA; Part B)

Introduction

The IEP requirements under Part B of the IDEA emphasize the importance of three core concepts: (1) the involvement and progress of each child with a disability in the general curriculum including addressing the unique needs that arise out of the child's disability; (2) the involvement of parents and students, together with regular and special education personnel, in making individual decisions to support each student's (child's) educational success, and (3) the preparation of students with disabilities for employment and other post-school activities.

The first three sections of this Appendix (I-III) provide guidance regarding the IEP requirements as they relate to the three core concepts described above. Section IV addresses other questions regarding the development and content of IEPs, including questions about the timelines and responsibility for developing and implementing IEPs, participation in IEP meetings, and IEP content. Section IV also addresses questions on other selected requirements under IDEA.

I. Involvement and Progress of Each Child With a Disability in the General Curriculum

In enacting the IDEA Amendments of 1997, the Congress found that research, demonstration, and practice over the past 20 years in special education and related disciplines have demonstrated that an effective educational system now and in the future must maintain high academic standards and clear performance goals for children with disabilities, consistent with the standards and expectations for all students in the educational system, and provide for appropriate and effective strategies and methods to ensure that students who are children with disabilities have maximum opportunities to achieve those standards and goals. [Section 651(a)(6)(A) of the Act.]

Accordingly, the evaluation and IEP provisions of Part B place great emphasis on the involvement and progress of children with disabilities in the general curriculum. (The term "general curriculum," as used in these regulations, including this Appendix, refers to the curriculum that is used with nondisabled children.)

While the Act and regulations recognize that IEP teams must make individualized decisions about the special education and related services, and supplementary aids and services, provided to each child with a disability, they are driven by IDEA's strong preference that, to the maximum extent appropriate, children with

disabilities be educated in regular classes with their nondisabled peers with appropriate supplementary aids and services.

In many cases, children with disabilities will need appropriate supports in order to successfully progress in the general curriculum, participate in State and district-wide assessment programs, achieve the measurable goals in their IEPs, and be educated together with their nondisabled peers. Accordingly, the Act requires the IEP team to determine, and the public agency to provide, the accommodations, modifications, supports, and supplementary aids and services, needed by each child with a disability to successfully be involved in and progress in the general curriculum achieve the goals of the IEP, and successfully demonstrate his or her competencies in State and district-wide assessments.

1. What are the major Part B IEP requirements that govern the involvement and progress of children with disabilities in the general curriculum?

Present Levels of Educational Performance

Section 300.347(a)(1) requires that the IEP for each child with a disability include " ... a statement of the child's present levels of educational performance, including—(i) *how the child's disability affects the child's involvement and progress in the general curriculum*; or (ii) *for preschool children, as appropriate, how the child's disability affects the child's participation in appropriate activities* ..." (Italics added.) ("Appropriate activities" in this context refers to age-relevant developmental abilities or milestones that typically developing children of the same age would be performing or would have achieved.)

The IEP team's determination of how each child's disability affects the child's involvement and progress in the general curriculum is a primary consideration in the development of the child's IEP. In assessing children with disabilities, school districts may use a variety of assessment techniques to determine the extent to which these children can be involved and progress in the general curriculum, such as criterion-referenced tests, standard achievement tests, diagnostic tests, other tests, or any combination of the above.

The purpose of using these assessments is to determine the child's present levels of educational performance and areas of need arising from the child's disability so that approaches for ensuring the child's involvement and progress in the general curriculum and any needed adaptations or modifications to that curriculum can be identified.

Measurable Annual Goals, including Benchmarks or Short-term Objectives

Measurable annual goals, including benchmarks or short-term objectives, are critical to the strategic planning process used to develop and implement the IEP for each child with a disability. Once the IEP team has developed measurable annual goals for a child, the team (1) can develop strategies that will be most effective in realizing those goals and (2) must develop either measurable,

intermediate steps (short-term objectives) or major milestones (benchmarks) that will enable parents, students, and educators to monitor progress during the year, and, if appropriate, to revise the IEP consistent with the student's instructional needs.

The strong emphasis in Part B on linking the educational program of children with disabilities to the general curriculum is reflected in §300.347(a)(2), which requires that the IEP include:

a statement of measurable annual goals, including benchmarks or short-term objectives, related to—(i) *meeting the child's needs that result from the child's disability to enable the child to be involved in and progress in the general curriculum*; and (ii) meeting each of the child's other educational needs that result from the child's disability.[italics added]

As noted above, each annual goal must include either short-term objectives or benchmarks. The purpose of both is to enable a child's teacher(s), parents, and others involved in developing and implementing the child's IEP, to gauge, at intermediate times during the year, how well the child is progressing toward achievement of the annual goal. IEP teams may continue to develop short-term instructional objectives, that generally break the skills described in the annual goal down into discrete components. The revised statute and regulations also provide that, as an alternative, IEP teams may develop benchmarks, which can be thought of as describing the amount of progress the child is expected to make within specified segments of the year. Generally, benchmarks establish expected performance levels that allow for regular checks of progress that coincide with the reporting periods for informing parents of their child's progress toward achieving the annual goals. An IEP team may use either short term objectives or benchmarks or a combination of the two depending on the nature of the annual goals and the needs of the child.

Special Education and Related Services and Supplementary Aids and Services

The requirements regarding services provided to address a child's present levels of educational performance and to make progress toward the identified goals reinforce the emphasis on progress in the general curriculum, as well as maximizing the extent to which children with disabilities are educated with nondisabled children. Section 300.347(a)(3) requires that the IEP include:

a statement of the special education and related services and supplementary aids and services to be provided to the child, or on behalf of the child, and a statement of the program modifications or supports for school personnel that will be provided for the child—(i) to advance appropriately toward attaining the annual goals; (ii) *to be involved and progress in the general curriculum ...* and to participate in extracurricular and other nonacademic activities; and (iii) *to be educated and participate with other children with disabilities and nondisabled children in [extracurricular and other nonacademic activities]* ... [Italics added.]

Extent to Which Child Will Participate With Nondisabled Children

Section 300.347(a)(4) requires that each child's IEP include "An explanation of the extent, if any, to which the child will not participate with nondisabled children in the regular class and in [extracurricular and other nonacademic] activities" This is consistent with the least restrictive environment (LRE) provisions at §§300.550-300.553, which include requirements that:

- (1) each child with a disability be educated with nondisabled children to the maximum extent appropriate (§300.550(b)(1));
- (2) each child with a disability be removed from the regular educational environment only when the nature or severity of the child's disability is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily (§300.550(b)(1)); and
- (3) to the maximum extent appropriate to the child's needs, each child with a disability participates with nondisabled children in nonacademic and extracurricular services and activities (§300.553).

All services and educational placements under Part B must be individually determined in light of each child's unique abilities and needs, to reasonably promote the child's educational success. Placing children with disabilities in this manner should enable each disabled child to meet high expectations in the future.

Although Part B requires that a child with a disability not be removed from the regular educational environment if the child's education can be achieved satisfactorily in regular classes with the use of supplementary aids and services, Part B's LRE principle is intended to ensure that a child with a disability is served in a setting where the child can be educated successfully. Even though IDEA does not mandate regular class placement for every disabled student, IDEA presumes that the first placement option considered for each disabled student by the student's placement team, which must include the parent, is the school the child would attend if not disabled, with appropriate supplementary aids and services to facilitate such placement. Thus, before a disabled child can be placed outside of the regular educational environment, the full range of supplementary aids and services that if provided would facilitate the student's placement in the regular classroom setting must be considered. Following that consideration, if a determination is made that particular disabled student cannot be educated satisfactorily in the regular educational environment, even with the provision of appropriate supplementary aids and services, that student then could be placed in a setting other than the regular classroom. Later, if it becomes apparent that the child's IEP can be carried out in a less restrictive setting, with the provision of appropriate supplementary aids and services, if needed, Part B would require that the child's placement be changed from the more restrictive setting to a less restrictive setting. In all cases, placement decisions must be individually determined on the basis of each child's abilities and needs, and not solely on factors such as category of disability, significance of disability,

availability of special education and related services, configuration of the service delivery system, availability of space, or administrative convenience. Rather, each student's IEP forms the basis for the placement decision.

Further, a student need not fail in the regular classroom before another placement can be considered. Conversely, IDEA does not require that a student demonstrate achievement of a specific performance level as a prerequisite for placement into a regular classroom.

Participation in State or District-wide Assessments of Student Achievement

Consistent with §300.138(a), which sets forth a presumption that children with disabilities will be included in general State and district-wide assessment programs, and provided with appropriate accommodations if necessary, §300.347(a)(5) requires that the IEP for each student with a disability include: "(i) a statement of any individual modifications in the administration of State or district-wide assessments of student achievement that are needed in order for the child to participate in the assessment; and (ii) if the IEP team determines that the child will not participate in a particular State or district-wide assessment of student achievement (or part of an assessment of student achievement), a statement of—(A) Why that assessment is not appropriate for the child; and (B) How the child will be assessed."

Regular Education Teacher Participation in the Development, Review, and Revision of IEPs

Very often, regular education teachers play a central role in the education of children with disabilities (H. Rep. No. 105-95, p. 103 (1997); S. Rep. No. 105-17, p. 23 (1997)) and have important expertise regarding the general curriculum and the general education environment. Further, with the emphasis on involvement and progress in the general curriculum added by the IDEA Amendments of 1997, regular education teachers have an increasingly critical role (together with special education and related services personnel) in implementing the program of FAPE for most children with disabilities, as described in their IEPs.

Accordingly, the IDEA Amendments of 1997 added a requirement that each child's IEP team must include at least one regular education teacher of the child, if the child is, or may be, participating in the regular education environment (see §300.344(a)(2)). (See also §§300.346(d) on the role of a regular education teacher in the development, review and revision of IEPs.)

2. Must a child's IEP address his or her involvement in the general curriculum, regardless of the nature and severity of the child's disability and the setting in which the child is educated?

Yes. The IEP for each child with a disability (including children who are educated in separate classrooms or schools) must address how the child will be involved and progress in the general curriculum. However, the Part B regulations

recognize that some children have other educational needs resulting from their disability that also must be met, even though those needs are not directly linked to participation in the general curriculum.

Accordingly, §300.347(a)(1)(2) requires that each child's IEP include:

A statement of measurable annual goals, including benchmarks or short-term objectives related to—(i) Meeting the child's needs that result from the child's disability to enable the child to be involved in and progress in the general curriculum; and (ii) meeting each of the child's other educational needs that result from the child's disability. *[Italics added.]*

Thus, the IEP team for each child with a disability must make an individualized determination regarding (1) how the child will be involved and progress in the general curriculum and what needs that result from the child's disability must be met to facilitate that participation; (2) whether the child has any other educational needs resulting from his or her disability that also must be met; and (3) what special education and other services and supports must be described in the child's IEP to address both sets of needs (consistent with §300.347(a)). For example, if the IEP team determines that in order for a child who is deaf to participate in the general curriculum he or she needs sign language and materials which reflect his or her language development, those needs (relating to the child's participation in the general curriculum) must be addressed in the child's IEP. In addition, if the team determines that the child also needs to expand his or her vocabulary in sign language that service must also be addressed in the applicable components of the child's IEP. The IEP team may also wish to consider whether there is a need for members of the child's family to receive training in sign language in order for the child to receive FAPE.

3. What must public agencies do to meet the requirements at §§300.344(a)(2) and 300.346(d) regarding the participation of a "regular education teacher" in the development, review, and revision of IEPs, for children aged 3 through 5 who are receiving preschool special education services?

If a public agency provides "regular education" preschool services to non-disabled children, then the requirements of §§300.344(a)(2) and 300.346(d) apply as they do in the case of older children with disabilities. If a public agency makes kindergarten available to nondisabled children, then a regular education kindergarten teacher could appropriately be the regular education teacher who would be a member of the IEP team, and, as appropriate, participate in IEP meetings, for a kindergarten-aged child who is, or may be, participating in the regular education environment.

If a public agency does not provide regular preschool education services to nondisabled children, the agency could designate an individual who, under State standards, is qualified to serve nondisabled children of the same age.

4. Must the measurable annual goals in a child's IEP address all areas of the general curriculum, or only those areas in which the child's involvement and progress are affected by the child's disability?

Section 300.347(a)(2) requires that each child's IEP include "A statement of measurable annual goals, including benchmarks or short-term objectives, related to—(i) *meeting the child's needs that result from the child's disability to enable the child to be involved in and progress in the general curriculum ...*; and (ii) meeting each of the child's other educational needs that result from the child's disability...." (Italics added).

Thus, a public agency is **not** required to include in an IEP annual goals that relate to areas of the general curriculum in which the child's disability does not affect the child's ability to be involved in and progress in the general curriculum. If a child with a disability needs only modifications or accommodations in order to progress in an area of the general curriculum, the IEP does not need to include a goal for that area; however, the IEP would need to specify those modifications or accommodations.

Public agencies often require all children, including children with disabilities, to demonstrate mastery in a given area of the general curriculum before allowing them to progress to the next level or grade in that area. Thus, in order to ensure that each child with a disability can effectively demonstrate competencies in an applicable area of the general curriculum, it is important for the IEP team to consider the accommodations and modifications that the child needs to assist him or her in demonstrating progress in that area.

II. Involvement of Parents and Students

The Congressional Committee Reports on the IDEA Amendments of 1997 express the view that the Amendments provide an opportunity for strengthening the role of parents, and emphasize that one of the purposes of the Amendments is to expand opportunities for parents and key public agency staff (e.g., special education, related services, regular education, and early intervention service providers, and other personnel) to work in new partnerships at both the State and local levels (H. Rep. 105-95, p. 82 (1997); S. Rep. No. 105-17, p. 4 and 5 (1997)). Accordingly, the IDEA Amendments of 1997 require that parents have an opportunity to participate in meetings with respect to the identification, evaluation, and educational placement of the child, and the provision of FAPE to the child. (§300.501(a)(2)). Thus, parents must now be part of: (1) the group that determines what additional data are needed as part of an evaluation of their child (§300.533(a)(1)); (2) the team that determines their child's eligibility (§300.534(a)(1)); and (3) the group that makes decisions on the educational placement of their child (§300.501(c)).

In addition, the concerns of parents and the information that they provide regarding their children must be considered in developing and reviewing their children's IEPs (§§300.343(c)(iii) and 300.346(a)(1)(i) and (b)); and the requirements for keeping parents informed about the educational progress of their children, particularly as it relates to their progress in the general curriculum,

have been strengthened (§300.347(a)(7)).

The IDEA Amendments of 1997 also contain provisions that greatly strengthen the involvement of students with disabilities in decisions regarding their own futures, to facilitate movement from school to post-school activities. For example, those amendments (1) retained, essentially verbatim, the “transition services” requirements from the IDEA Amendments of 1990 (which provide that a statement of needed transition services must be in the IEP of each student with a disability, beginning no later than age 16); and (2) significantly expanded those provisions by adding a new annual requirement for the IEP to include “transition planning” activities for students beginning at age 14. (See section IV of this appendix for a description of the transition services requirements and definition.)

With respect to student involvement in decisions regarding transition services, §300.344(b) provides that (1) “the public agency shall invite a student with a disability of any age to attend his or her IEP meeting if a purpose of the meeting will be the consideration of—(i) The student’s transition services needs under §300.347(b)(1); or (ii) The needed transition services for the student under §300.347(b)(2); or (iii) Both;” and (2) “If the student does not attend the IEP meeting, the public agency shall take other steps to ensure that the student’s preferences and interests are considered.” (§300.344(b)(2)).

The IDEA Amendments of 1997 also give States the authority to elect to transfer the rights accorded to parents under Part B to each student with a disability upon reaching the age of majority under State law (if the student has not been determined incompetent under State law) (§300.517). (Part B requires that if the rights transfer to the student, the public agency must provide any notice required under Part B to both the student and the parents.) If the State elects to provide for the transfer of rights from the parents to the student at the age of majority, the IEP must, beginning at least one year before a student reaches the age of majority under State law, include a statement that the student has been informed of any rights that will transfer to him or her upon reaching the age of majority. (§300.347(c)).

The IDEA Amendments of 1997 also permit, but do not require, States to establish a procedure for appointing the parent, or another appropriate individual if the parent is not available, to represent the educational interests of a student with a disability who has reached the age of majority under State law and has not been determined to be incompetent, but who is determined not to have the ability to provide informed consent with respect to his or her educational program.

5. What is the role of the parents, including surrogate parents, in decisions regarding the educational program of their children?

The parents of a child with a disability are expected to be equal participants along with school personnel, in developing, reviewing, and revising the IEP for their child. This is an active role in which the parents (1) provide critical information regarding the strengths of their child and express their concerns for enhancing the education of their child; (2) participate in discussions about the

child's need for special education and related services and supplementary aids and services; and (3) join with the other participants in deciding how the child will be involved and progress in the general curriculum and participate in State and district-wide assessments, and what services the agency will provide to the child and in what setting.

As previously noted in the introduction to section II of this Appendix, Part B specifically provides that parents of children with disabilities—

- Have an opportunity to participate in meetings with respect to the identification, evaluation, and educational placement of their child, and the provision of FAPE to the child (including IEP meetings) (§§300.501(b), 300.344(a)(1), and 300.517;
- Be part of the groups that determine what additional data are needed as part of an evaluation of their child (§300.533(a)(1)), and determine their child's eligibility (§300.534(a)(1)) and educational placement (§300.501(c));
- Have their concerns and the information that they provide regarding their child considered in developing and reviewing their child's IEPs (§§300.343(c)(iii) and 300.346(a)(1)(i) and (b)); and
- Be regularly informed (by such means as periodic report cards), as specified in their child's IEP, at least as often as parents are informed of their nondisabled children's progress, of their child's progress toward the annual goals in the IEP and the extent to which that progress is sufficient to enable the child to achieve the goals by the end of the year (§300.347(a)(7)).

A surrogate parent is a person appointed to represent the interests of a child with a disability in the educational decision-making process when no parent (as defined at §300.20) is known, the agency, after reasonable efforts, cannot locate the child's parents, or the child is a ward of the State under the laws of the State. A surrogate parent has all of the rights and responsibilities of a parent under Part B (§300.515.)

6. What are the Part B requirements regarding the participation of a student (child) with a disability in an IEP meeting?

If a purpose of an IEP meeting for a student with a disability will be the consideration of the student's transition services needs or needed transition services under §300.347(b)(1) or (2), or both, the public agency must invite the student and, as part of the notification to the parents of the IEP meeting, inform the parents that the agency will invite the student to the IEP meeting.

If the student does not attend, the public agency must take other steps to ensure that the student's preferences and interests are considered. (See §300.344(b)).

Section §300.517 permits, but does not require, States to transfer procedural rights under Part B from the parents to students with disabilities who reach the

age of majority under State law, if they have not been determined to be incompetent under State law. If those rights are to be transferred from the parents to the student, the public agency would be required to ensure that the student has the right to participate in IEP meetings set forth for parents in §300.345. However, at the discretion of the student or the public agency, the parents also could attend IEP meetings as "... individuals who have knowledge or special expertise regarding the child ..." (see §300.344(a)(6)).

In other circumstances, a child with a disability may attend "if appropriate." (§300.344(a)(7)) Generally, a child with a disability should attend the IEP meeting if the parent decides that it is appropriate for the child to do so. If possible, the agency and parents should discuss the appropriateness of the child's participation before a decision is made, in order to help the parents determine whether or not the child's attendance would be (1) helpful in developing the IEP or (2) directly beneficial to the child or both. The agency should inform the parents before each IEP meeting—as part of notification under §300.345(a)(1)—that they may invite their child to participate.

7. Must the public agency inform the parents of who will be at the IEP meeting?

Yes. In notifying parents about the meeting, the agency "must indicate the purpose, time, and location of the meeting, and *who will be in attendance*." (§300.345(b), italics added.) In addition, if a purpose of the IEP meeting will be the consideration of a student's transition services needs or needed transition services under §300.347(b)(1) or (2) or both, the notice must also inform the parents that the agency is inviting the student, and identify any other agency that will be invited to send a representative.

The public agency also must inform the parents of the right of the parents and the agency to invite other individuals who have knowledge or special expertise regarding the child, including related services personnel as appropriate to be members of the IEP team. (§300.345(b)(1)(ii)).

It also may be appropriate for the agency to ask the parents to inform the agency of any individuals the parents will be bringing to the meeting. Parents are encouraged to let the agency know whom they intend to bring. Such cooperation can facilitate arrangements for the meeting, and help ensure a productive, child-centered meeting.

8. Do parents have the right to a copy of their child's IEP?

Yes. Section 300.345(f) states that the public agency shall give the parent a copy of the IEP at no cost to the parent.

9. What is a public agency's responsibility if it is not possible to reach consensus on what services should be included in a child's IEP?

The IEP meeting serves as a communication vehicle between parents and school personnel, and enables them, as equal participants, to make joint,

informed decisions regarding the (1) child's needs and appropriate goals; (2) extent to which the child will be involved in the general curriculum and participate in the regular education environment and State and district-wide assessments; and (3) services needed to support that involvement and participation and to achieve agreed-upon goals. Parents are considered equal partners with school personnel in making these decisions, and the IEP team must consider the parents' concerns and the information that they provide regarding their child in developing, reviewing, and revising IEPs (§§300.343(c)(iii) and 300.346(a)(1) and (b)).

The IEP team should work toward consensus, but the public agency has ultimate responsibility to ensure that the IEP includes the services that the child needs in order to receive FAPE. It is not appropriate to make IEP decisions based upon a majority "vote." If the team cannot reach consensus, the public agency must provide the parents with prior written notice of the agency's proposals or refusals, or both, regarding the child's educational program, and the parents have the right to seek resolution of any disagreements by initiating an impartial due process hearing.

Every effort should be made to resolve differences between parents and school staff through voluntary mediation or some other informal step, without resort to a due process hearing. However, mediation or other informal procedures may not be used to deny or delay a parent's right to a due process hearing, or to deny any other rights afforded under Part B.

10. Does Part B require that public agencies inform parents regarding the educational progress of their children with disabilities?

Yes. The Part B statute and regulations include a number of provisions to help ensure that parents are involved in decisions regarding, and are informed about, their child's educational progress, including the child's progress in the general curriculum. First, the parents will be informed regarding their child's present levels of educational performance through the development of the IEP. Section 300.347(a)(1) requires that each IEP include:

...A statement of the child's present levels of educational performance, including—(i) how the child's disability affects the child's involvement and progress in the general curriculum; or (ii) for preschool children, as appropriate, how the disability affects the child's participation in appropriate activities...

Further, §300.347(a)(7) sets forth new requirements for regularly informing parents about their child's educational progress, as regularly as parents of nondisabled children are informed of their child's progress. That section requires that the IEP include:

A statement of—(i) How the child's progress toward the annual goals ... will be measured; and (ii) how the child's parents will be regularly informed (by such means as periodic report cards), at least as often as parents are informed of their nondisabled children's progress, of—(A) their child's

progress toward the annual goals; and (B) the extent to which that progress is sufficient to enable the child to achieve the goals by the end of the year.

One method that public agencies could use in meeting this requirement would be to provide periodic report cards to the parents of students with disabilities that include both (1) the grading information provided for all children in the agency at the same intervals; and (2) the specific information required by §300.347(a)(7)(ii)(A) and (B).

Finally, the parents, as part of the IEP team, will participate at least once every 12 months in a review of their child's educational progress. Section 300.343(c) requires that a public agency initiate and conduct a meeting, at which the IEP team:

...(1) Reviews the child's IEP periodically, but not less than annually to determine whether the annual goals for the child are being achieved; and (2) revises the IEP as appropriate to address—(i) any lack of expected progress toward the annual goals ... and in the general curriculum, if appropriate; (ii) The results of any reevaluation ...; (iii) Information about the child provided to, or by, the parents ...; (iv) The child's anticipated needs; or (v) Other matters.

III. Preparing Students With Disabilities for Employment and Other Post-School Experiences

One of the primary purposes of the IDEA is to "... ensure that all children with disabilities have available to them a free appropriate public education that emphasizes special education and related services designed to meet their unique needs and prepare them for employment and independent living..." (§300.1(a)). Section 701 of the Rehabilitation Act of 1973 describes the philosophy of independent living as including a philosophy of consumer control, peer support, self-help, self-determination, equal access, and individual and system advocacy, in order to maximize the leadership, empowerment, independence, and productivity of individuals with disabilities, and the integration and full inclusion of individuals with disabilities into the mainstream of American society. Because many students receiving services under IDEA will also receive services under the Rehabilitation Act, it is important, in planning for their future, to consider the impact of both statutes.

Similarly, one of the key purposes of the IDEA Amendments of 1997 was to "promote improved educational results for children with disabilities through early intervention, preschool, and educational experiences that prepare them for later educational challenges and employment." (H. Rep. No. 105-95, p. 82 (1997); S. Rep. No. 105-17, p. 4 (1997)).

Thus, throughout their preschool, elementary, and secondary education, the IEPs for children with disabilities must, to the extent appropriate for each individual child, focus on providing instruction and experiences that enable the child to prepare himself or herself for later educational experiences and for post-school

activities, including formal education, if appropriate, employment, and independent living. Many students with disabilities will obtain services through State vocational rehabilitation programs to ensure that their educational goals are effectively implemented in post-school activities. Services available through rehabilitation programs are consistent with the underlying purpose of IDEA.

Although preparation for adult life is a key component of FAPE throughout the educational experiences of students with disabilities, Part B sets forth specific requirements related to transition planning and transition services that must be implemented no later than ages 14 and 16, respectively, and which require an intensified focus on that preparation as these students begin and prepare to complete their secondary education.

11. What must the IEP team do to meet the requirements that the IEP include "a statement of ... transition service needs" beginning at age 14 (§300.347(b)(1)(i)), and a statement of needed transition services" no later than age 16 (§300.347(b)(2)?

Section 300.347(b)(1) requires that, beginning no later than age 14, each student's IEP include specific transition-related content, and, beginning no later than age 16, a statement of needed transition services:

Beginning at age 14 and younger if appropriate, and updated annually, each student's IEP must include:

"... a statement of the transition service needs of the student under the applicable components of the student's IEP that focuses on the student's courses of study (such as participation in advanced-placement courses or a vocational education program)" (§300.347(b)(1)(i)).

Beginning at age 16 (or younger, if determined appropriate by the IEP team), each student's IEP must include:

"... a statement of needed transition services for the student, including, if appropriate, a statement of the interagency responsibilities or any needed linkages." (§300.347(b)(2)).

The Committee Reports on the IDEA Amendments of 1997 make clear that the requirement added to the statute in 1997 that beginning at age 14, and updated annually, the IEP include "a statement of the transition service needs" is "... designed to augment, and not replace," the separate, preexisting requirement that the IEP include, "... beginning at age 16 (or younger, if determined appropriate by the IEP team), a statement of needed transition services ..." (H. Rep. No. 105-95, p. 102 (1997); S. Rep. No. 105-17, p. 22 (1997)). As clarified by the Reports, "The purpose of [the requirement in §300.347(b)(1)(i)] is to focus attention on how the child's educational program can be planned to help the child make a successful transition to his or her goals for life after secondary school." (H. Rep. No. 105-95, pp. 101-102 (1997); S. Rep. No. 105-17, p. 22 (1997)). The Reports further explain that "[F]or example, for a child whose transition goal is a job, a transition service could be teaching the child how to get to the job site

on public transportation." (H. Rep. No. 105-95, p. 102 (1997); S. Rep. No. 105-17, p. 22 (1997)).

Thus, beginning at age 14, the IEP team, in determining appropriate measurable annual goals (including benchmarks or short-term objectives) and services for a student, must determine what instruction and educational experiences will assist the student to prepare for transition from secondary education to post-secondary life.

The statement of transition service needs should relate directly to the student's goals beyond secondary education, and show how planned studies are linked to these goals. For example, a student interested in exploring a career in computer science may have a statement of transition services needs connected to technology course work, while another student's statement of transition services needs could describe why public bus transportation training is important for future independence in the community.

Although the focus of the transition planning process may shift as the student approaches graduation, the IEP team must discuss specific areas beginning at least at the age of 14 years and review these areas annually. As noted in the Committee Reports, a disproportionate number of students with disabilities drop out of school before they complete their secondary education: "Too many students with disabilities are failing courses and dropping out of school. Almost twice as many students with disabilities drop out as compared to students without disabilities." (H. Rep. No. 105-95, p. 85 (1997), S. Rep. No. 105-17, p. 5 (1997).)

To help reduce the number of students with disabilities that drop out, it is important that the IEP team work with each student with a disability and the student's family to select courses of study that will be meaningful to the student's future and motivate the student to complete his or her education.

This requirement is distinct from the requirement, at §300.347(b)(2), that the IEP include:

... beginning at age 16 (or younger, if determined appropriate by the IEP team), a statement of needed transition services for the child, including, if appropriate, a statement of the interagency responsibilities or any needed linkages.

The term "transition services" is defined at §300.29 to mean:

... a coordinated set of activities for a student with a disability that—(1) is designed within an outcome-oriented process, that promotes movement from school to post-school activities, including post-secondary education, vocational training, integrated employment (including supported employment), continuing and adult education, adult services, independent living, or community participation; (2) Is based on the individual student's needs, taking into account the student's preferences and interests; and (3) Includes—(i) Instruction; (ii) Related services; (iii) Community experiences; (iv) The development of employment and other post-school adult living objectives; and (v) If appropriate, acquisition of daily living

skills and functional vocational evaluation.

Thus, while §300.347(b)(1) requires that the IEP team begin by age 14 to address the student's need for instruction that will assist the student to **prepare** for transition, the IEP must include by age 16 a statement of needed transition services under §300.347(b)(2) that includes a "coordinated set of activities ..., designed within an outcome-oriented process, that promotes movement from school to post-school activities" (§300.29) Section 300.344(b)(3) further requires that, in implementing §300.347(b)(1), public agencies (in addition to required participants for all IEP meetings), must also invite a representative of any other agency that is likely to be responsible for providing or paying for transition services. Thus, §300.347(b)(2) requires a broader focus on coordination of services across, and linkages between, agencies beyond the SEA and LEA.

12. Must the IEP for each student with a disability, beginning no later than age 16, include all "needed transition services," as identified by the IEP team and consistent with the definition at §300.29, even if an agency other than the public agency will provide those services? What is the public agency's responsibility if another agency fails to provide agreed-upon transition services?

Section 300.347(b)(2) requires that the IEP for each child with a disability, beginning no later than age 16, or younger if determined appropriate by the IEP team, include all "needed transition services," as identified by the IEP team and consistent with the definition at §300.29, regardless of whether the public agency or some other agency will provide those services. Section 300.347(b)(2) specifically requires that the statement of needed transition services include, "... if appropriate, a statement of the interagency responsibilities or any needed linkages."

Further, the IDEA Amendments of 1997 also permit an LEA to use up to five percent of the Part B funds it receives in any fiscal year in combination with other amounts, which must include amounts other than education funds, to develop and implement a coordinated services system. These funds may be used for activities such as: (1) linking IEPs under Part B and Individualized Family Service Plans (IFSPs) under Part C, with Individualized Service Plans developed under multiple Federal and State programs, such as Title I of the Rehabilitation Act; and (2) developing and implementing interagency financing strategies for the provision of services, including transition services under Part B.

The need to include, as part of a student's IEP, transition services to be provided by agencies other than the public agency is contemplated by §300.348(a), which specifies what the public agency must do if another agency participating in the development of the statement of needed transition services fails to provide a needed transition service that it had agreed to provide.

If an agreed-upon service by another agency is not provided, the public agency responsible for the student's education must implement alternative strategies to

meet the student's needs. This requires that the public agency provide the services, or convene an IEP meeting as soon as possible to identify alternative strategies to meet the transition services objectives, and to revise the IEP accordingly.

Alternative strategies might include the identification of another funding source, referral to another agency, the public agency's identification of other district-wide or community resources that it can use to meet the student's identified needs appropriately, or a combination of these strategies. As emphasized by §300.348(b), however:

Nothing in [Part B] relieves any participating agency, including a State vocational rehabilitation agency, of the responsibility to provide or pay for any transition service that the agency would otherwise provide to students with disabilities who meet the eligibility criteria of that agency.

However, the fact that an agency other than the public agency does not fulfill its responsibility does not relieve the public agency of its responsibility to ensure that FAPE is available to each student with a disability. (Section 300.142(b)(2) specifically requires that if an agency other than the LEA fails to provide or pay for a special education or related service (which could include a transition service), the LEA must, without delay, provide or pay for the service, and may then claim reimbursement from the agency that failed to provide or pay for the service.)

13. Under what circumstances must a public agency invite representatives from other agencies to an IEP meeting at which a child's need for transition services will be considered?

Section 300.344 requires that, "In implementing the requirements of [§300.347(b)(1)(ii) requiring a statement of needed transition services], the public agency shall also invite a representative of any other agency that is likely to be responsible for providing or paying for transition services." To meet this requirement, the public agency must identify all agencies that are "likely to be responsible for providing or paying for transition services" for each student addressed by §300.347(b)(1), and must invite each of those agencies to the IEP meeting; and if an agency invited to send a representative to a meeting does not do so, the public agency must take other steps to obtain the participation of that agency in the planning of any transition services.

If, during the course of an IEP meeting, the team identifies additional agencies that are "likely to be responsible for providing or paying for transition services" for the student, the public agency must determine how it will meet the requirements of §300.344.

IV. Other Questions Regarding the Development and Content of IEPs

14. For a child with a disability receiving special education for the first time, when must an IEP be developed—before or after the child begins to receive special education and related services?

Section 300.342(b)(1) requires that an IEP be "*in effect* before special education and related services are provided to an eligible child..." (Italics added.)

The appropriate placement for a particular child with a disability cannot be determined until after decisions have been made about the child's needs and the services that the public agency will provide to meet those needs. These decisions must be made at the IEP meeting, and it would not be permissible first to place the child and then develop the IEP. Therefore, the IEP must be developed before placement. (Further, the child's placement must be based, among other factors, on the child's IEP.)

This requirement does not preclude temporarily placing an eligible child with a disability in a program as part of the evaluation process—before the IEP is finalized—to assist a public agency in determining the appropriate placement for the child. However, it is essential that the temporary placement not become the final placement before the IEP is finalized. In order to ensure that this does not happen, the State might consider requiring LEAs to take the following actions:

- a. Develop an *interim* IEP for the child that sets out the specific conditions and timelines for the trial placement. (See paragraph c, following.)
- b. Ensure that the parents agree to the interim placement before it is carried out, and that they are involved throughout the process of developing, reviewing, and revising the child's IEP.
- c. Set a specific timeline (e.g., 30 days) for completing the evaluation, finalizing the IEP, and determining the appropriate placement for the child.
- d. Conduct an IEP meeting at the end of the trial period in order to finalize the child's IEP.

15. Who is responsible for ensuring the development of IEPs for children with disabilities served by a public agency other than an LEA?

The answer as to which public agency has direct responsibility for ensuring the development of IEPs for children with disabilities served by a public agency other than an LEA will vary from State to State, depending upon State law, policy, or practice. The SEA is ultimately responsible for ensuring that all Part B requirements, including the IEP requirements, are met for eligible children within the State, including those children served by a public agency other than an LEA. Thus, the SEA must ensure that every eligible child with a disability in the State

has FAPE available, regardless of which State or local agency is responsible for educating the child. (The only exception to this responsibility is that the SEA is not responsible for ensuring that FAPE is made available to children with disabilities who are convicted as adults under State law and incarcerated in adult prisons, if the State has assigned that responsibility to a public agency other than the SEA. (See §300.600(d)).

Although the SEA has flexibility in deciding the best means to meet this obligation (e.g., through interagency agreements), the SEA must ensure that no eligible child with a disability is denied FAPE due to jurisdictional disputes among agencies.

When an LEA is responsible for the education of a child with a disability, the LEA remains responsible for developing the child's IEP, regardless of the public or private school setting into which it places the child.

16. For a child placed out of State by an educational or non-educational State or local agency, is the placing or receiving State responsible for the child's IEP?

Regardless of the reason for the placement, the "placing" State is responsible for ensuring that the child's IEP is developed and that it is implemented. The determination of the specific agency in the placing State that is responsible for the child's IEP would be based on State law, policy, or practice. However, the SEA in the placing State is ultimately responsible for ensuring that the child has FAPE available.

17. If a disabled child has been receiving special education from one public agency and transfers to another public agency in the same State, must the new public agency develop an IEP before the child can be placed in a special education program?

If a child with a disability moves from one public agency to another in the same State, the State and its public agencies have an ongoing responsibility to ensure that FAPE is made available to that child. This means that if a child moves to another public agency the new agency is responsible for ensuring that the child has available special education and related services in conformity with an IEP.

The new public agency must ensure that the child has an IEP in effect before the agency can provide special education and related services. The new public agency may meet this responsibility by either adopting the IEP the former public agency developed for the child or by developing a new IEP for the child. (The new public agency is strongly encouraged to continue implementing the IEP developed by the former public agency, if appropriate, especially if the parents believe their child was progressing appropriately under that IEP.)

Before the child's IEP is finalized, the new public agency may provide interim services agreed to by both the parents and the new public agency. If the parents and the new public agency are unable to agree on an interim IEP and placement, the new public agency must implement the old IEP to the extent possible until a

new IEP is developed and implemented.

In general, while the new public agency must conduct an IEP meeting, it would not be necessary if: (1) A copy of the child's current IEP is available; (2) the parents indicate that they are satisfied with the current IEP; and (3) the new public agency determines that the current IEP is appropriate and can be implemented as written.

If the child's current IEP is not available, or if either the new public agency or the parent believes that it is not appropriate, the new public agency must develop a new IEP through appropriate procedures within a short time after the child enrolls in the new public agency (normally, within one week).

18. What timelines apply to the development and implementation of an initial IEP for a child with a disability?

Section 300.343(b) requires each public agency to ensure that within a reasonable period of time following the agency's receipt of parent consent to an initial evaluation a child, the child is evaluated and, if determined eligible, special education and related services are made available to the child in accordance with an IEP. The section further requires the agency to conduct a meeting to develop an IEP for the child within 30 days of determining that the child needs special education and related services.

Section 300.342(b)(2) provides that an IEP must be implemented as soon as possible following the meeting in which the IEP is developed.

19. Must a public agency hold separate meetings to determine a child's eligibility for special education and related services, develop the child's IEP, and determine the child's placement, or may the agency meet all of these requirements in a single meeting?

A public agency may, after a child is determined by "a group of qualified professionals and the parent" (see §300.534(a)(1)) to be a child with a disability, continue in the same meeting to develop an IEP for the child and then to determine the child's placement. However, the public agency must ensure that it meets: (1) the requirements of §300.535 regarding eligibility decisions; (2) all of the Part B requirements regarding meetings to develop IEPs (including providing appropriate notification to the parents, consistent with the requirements of §§300.345, 300.503, and 300.504, and ensuring that all the required team members participate in the development of the IEP, consistent with the requirements of §300.344;) and (3) ensuring that the placement is made by the required individuals, including the parent, as required by §§300.552 and 300.501(c).

20. How frequently must a public agency conduct meetings to review, and, if appropriate, revise the IEP for each child with a disability?

A public agency must initiate and conduct meetings periodically, but at least once every twelve months, to review each child's IEP, in order to determine whether

the annual goals for the child are being achieved, and to revise the IEP, as appropriate, to address: (a) any lack of expected progress toward the annual goals and in the general curriculum, if appropriate; (b) the results of any reevaluation; (c) information about the child provided to, or by, the parents; (d) the child's anticipated needs; or (e) other matters (§300.343(c)).

A public agency also must ensure that an IEP is in effect for each child at the beginning of each school year (§300.342(a)). It may conduct IEP meetings at any time during the year. However, if the agency conducts the IEP meeting prior to the beginning of the next school year, it must ensure that the IEP contains the necessary special education and related services and supplementary aids and services to ensure that the student's IEP can be appropriately implemented during the next school year. Otherwise, it would be necessary for the public agency to conduct another IEP meeting.

Although the public agency is responsible for determining when it is necessary to conduct an IEP meeting, the parents of a child with a disability have the right to request an IEP meeting at any time. For example, if the parents believe that the child is not progressing satisfactorily or that there is a problem with the child's current IEP, it would be appropriate for the parents to request an IEP meeting.

If a child's teacher feels that the child's IEP or placement is not appropriate for the child, the teacher should follow agency procedures with respect to: (1) calling or meeting with the parents or (2) requesting the agency to hold another IEP meeting to review the child's IEP.

The legislative history of Public Law 94-142 makes it clear that there should be as many meetings a year as any one child may need (121 Cong. Rec. S20428-29 (Nov. 19, 1975) (remarks of Senator Stafford)). Public agencies should grant any reasonable parent request for an IEP meeting. For example, if the parents question the adequacy of services that are provided while their child is suspended for short periods of time, it would be appropriate to convene an IEP meeting.

In general, if either a parent or a public agency believes that a required component of the student's IEP should be changed, the public agency must conduct an IEP meeting if it believes that a change in the IEP may be necessary to ensure the provision of FAPE.

If a parent requests an IEP meeting because the parent believes that a change is needed in the provision of FAPE to the child or the educational placement of the child, and the agency refuses to convene an IEP meeting to determine whether such a change is needed, the agency must provide written notice to the parents of the refusal, including an explanation of why the agency has determined that conducting the meeting is not necessary to ensure the provision of FAPE to the student.

Under §300.507(a), the parents or agency may initiate a due process hearing at any time regarding any proposal or refusal regarding the identification, evaluation, or educational placement of the child, or the provision of FAPE to the

child, and the public agency must inform parents about the availability of mediation.

21. May IEP meetings be audio or video-tape-recorded?

Part B does not address the use of audio or video recording devices at IEP meetings, and no other Federal statute either authorizes or prohibits the recording of an IEP meeting by either a parent or a school official. Therefore, an SEA or public agency has the option to require, prohibit, limit, or otherwise regulate the use of recording devices at IEP meetings.

If a public agency has a policy that prohibits or limits the use of recording devices at IEP meetings, that policy must provide for exceptions if they are necessary to ensure that the parent understands the IEP or the IEP process or to implement other parental rights guaranteed under Part B. An SEA or school district that adopts a rule regulating the tape recording of IEP meetings also should ensure that it is uniformly applied.

Any recording of an IEP meeting that is maintained by the public agency is an "education record," within the meaning of the Family Educational Rights and Privacy Act ("FERPA"; 20 U.S.C. 1232g), and would, therefore, be subject to the confidentiality requirements of the regulations under both FERPA (34 CFR Part 99) and Part B (§§300.560-300.575).

Parents wishing to use audio or video recording devices at IEP meetings should consult State or local policies for further guidance.

22. Who can serve as the representative of the public agency at an IEP meeting?

The IEP team must include a representative of the public agency who: (a) is qualified to provide, or supervise the provision of, specially designed instruction to meet the unique needs of children with disabilities; (b) is knowledgeable about the general curriculum; and (c) is knowledgeable about the availability of resources of the public agency (§300.344(a)(4)).

Each public agency may determine which specific staff member will serve as the agency representative in a particular IEP meeting, so long as the individual meets these requirements. It is important, however, that the agency representative have the authority to commit agency resources and be able to ensure that whatever services are set out in the IEP will actually be provided.

A public agency may designate another public agency member of the IEP team to also serve as the agency representative, so long as that individual meets the requirements of §300.344(a)(4).

23. For a child with a disability being considered for initial provision of special education and related services, which teacher or teachers should attend the IEP meeting?

A child's IEP team must include at least one of the child's regular education

teachers (if the child is, or may be participating in the regular education environment) and at least one of the child's special education teachers, or, if appropriate, at least one of the child's special education providers (§300.344(a)(2) and (3)).

Each IEP must include a statement of the present levels of educational performance, including a statement of how the child's disability affects the child's involvement and progress in the general curriculum (§300.347(a)(1)). At least one regular education teacher is a required member of the IEP team of a child who is, or may be, participating in the regular educational environment, regardless of the extent of that participation.

The requirements of §300.344(a)(3) can be met by either: (1) a special education teacher of the child; or (2) another special education provider of the child, such as a speech pathologist, physical or occupational therapist, etc., if the related service consists of specially designed instruction and is considered special education under applicable State standards.

Sometimes more than one meeting is necessary in order to finalize a child's IEP. In this process, if the special education teacher or special education provider who will be working with the child is identified, it would be useful to have that teacher or provider participate in the meeting with the parents and other members of the IEP team in finalizing the IEP. If this is not possible, the public agency must ensure that the teacher or provider has access to the child's IEP as soon as possible after it is finalized and before beginning to work with the child.

Further, (consistent with §300.342(b)), the public agency must ensure that each regular education teacher, special education teacher, related services provider and other service provider of an eligible child under this part (1) has access to the child's IEP, and (2) is informed of his or her specific responsibilities related to implementing the IEP, and of the specific accommodations, modifications, and supports that must be provided to the child in accordance with the IEP. This requirement is crucial to ensuring that each child receives FAPE in accordance with his or her IEP, and that the IEP is appropriately and effectively implemented.

24. What is the role of a regular education teacher in the development, review and revision of the IEP for a child who is, or may be, participating in the regular education environment?

As required by §300.344(a)(2), the IEP team for a child with a disability must include at least one regular education teacher of the child if the child is, or may be, participating in the regular education environment. Section 300.346(d) further specifies that the regular education teacher of a child with a disability, as a member of the IEP team, must, to the extent appropriate, participate in the development, review, and revision of the child's IEP, including assisting in—(1) the determination of appropriate positive behavioral interventions and strategies for the child; and (2) the determination of supplementary aids and services, program modifications, and supports for school personnel that will be provided for the child, consistent with 300.347(a)(3) (§300.344(d)).

Thus, while a regular education teacher must be a member of the IEP team if the child is, or may be, participating in the regular education environment, the teacher need not (depending upon the child's needs and the purpose of the specific IEP team meeting) be required to participate in all decisions made as part of the meeting or to be present throughout the entire meeting or attend every meeting. For example, the regular education teacher who is a member of the IEP team must participate in discussions and decisions about how to modify the general curriculum in the regular classroom to ensure the child's involvement and progress in the general curriculum and participation in the regular education environment.

Depending upon the specific circumstances, however, it may not be necessary for the regular education teacher to participate in discussions and decisions regarding, for example, the physical therapy needs of the child, if the teacher is not responsible for implementing that portion of the child's IEP.

In determining the extent of the regular education teacher's participation at IEP meetings, public agencies and parents should discuss and try to reach agreement on whether the child's regular education teacher that is a member of the IEP team should be present at a particular IEP meeting and, if so, for what period of time. The extent to which it would be appropriate for the regular education teacher member of the IEP team to participate in IEP meetings must be decided on a case-by-case basis.

25. If a child with a disability attends several regular classes, must all of the child's regular education teachers be members of the child's IEP team?

No. The IEP team need not include more than one regular education teacher of the child. If the participation of more than one regular education teacher would be beneficial to the child's success in school (e.g., in terms of enhancing the child's participation in the general curriculum), it would be appropriate for them to attend the meeting.

26. How should a public agency determine which regular education teacher and special education teacher will be members of the IEP team for a particular child with a disability?

The regular education teacher who serves as a member of a child's IEP team should be a teacher who is, or may be, responsible for implementing a portion of the IEP, so that the teacher can participate in discussions about how best to teach the child.

If the child has more than one regular education teacher responsible for carrying out a portion of the IEP, the LEA may designate which teacher or teachers will serve as IEP team member(s), taking into account the best interest of the child.

In a situation in which not all of the child's regular education teachers are members of the child's IEP team, the LEA is strongly encouraged to seek input from the teachers who will not be attending. In addition, (consistent with §300.342(b)), the LEA must ensure that each regular education teacher (as well

as each special education teacher, related services provider, and other service provider) of an eligible child under this part (1) has access to the child's IEP, and (2) is informed of his or her specific responsibilities related to implementing the IEP, and of the specific accommodations, modifications and supports that must be provided to the child in accordance with the IEP.

In the case of a child whose behavior impedes the learning of the child or others, the LEA is encouraged to have a regular education teacher or other person knowledgeable about positive behavior strategies at the IEP meeting. This is especially important if the regular education teacher is expected to carry out portions of the IEP.

Similarly, the special education teacher or provider of the child who is a member of the child's IEP team should be the person who is, or will be, responsible for implementing the IEP. If, for example, the child's disability is a speech impairment, the special education teacher on the IEP team could be the speech-language pathologist.

27. For a child whose primary disability is a speech impairment, may a public agency meet its responsibility under §300.344(a)(3) to ensure that the IEP team includes "at least one special education teacher, or, if appropriate, at least one special education provider of the child" by including a speech-language pathologist on the IEP team?

Yes, if speech is considered special education under State standards. As with other children with disabilities, the IEP team must also include at least one of the child's *regular education* teachers if the child is, or may be, participating in the regular education environment.

28. Do parents and public agencies have the option of inviting any individual of their choice be participants on their child's IEP team?

The IEP team may, at the discretion of the parent or the agency, include "other individuals *who have knowledge or special expertise regarding the child ...*" (§300.344(a)(6), italics added). Under §300.344(a)(6), these individuals are members of the IEP team. This is a change from prior law, which provided, without qualification, that parents or agencies could have other individuals as members of the IEP team at the discretion of the parents or agency.

Under §300.344(c), the determination as to whether an individual has knowledge or special expertise, within the meaning of §300.344(a)(6), shall be made by the parent or public agency who has invited the individual to be a member of the IEP team.

Part B does not provide for including individuals such as representatives of teacher organizations as part of an IEP team, unless they are included because of knowledge or special expertise regarding the child. (Because a representative of a teacher organization would generally be concerned with the interests of the teacher rather than the interests of the child, and generally would not possess knowledge or expertise regarding the child, it generally would be inappropriate

for such an official to be a member of the IEP team or to otherwise participate in an IEP meeting.)

29. Can parents or public agencies bring their attorneys to IEP meetings, and, if so under what circumstances? Are attorney's fees available for parents' attorneys if the parents are prevailing parties in actions or proceedings brought under Part B?

Section 300.344(a)(6) authorizes the addition to the IEP team of other individuals at the discretion of the parent or the public agency only if those other individuals have knowledge or special expertise regarding the child. The determination of whether an attorney possesses knowledge or special expertise regarding the child would have to be made on a case-by-case basis by the parent or public agency inviting the attorney to be a member of the team.

The presence of the agency's attorney could contribute to a potentially adversarial atmosphere at the meeting. The same is true with regard to the presence of an attorney accompanying the parents at the IEP meeting. Even if the attorney possessed knowledge or special expertise regarding the child (§300.344(a)(6)), an attorney's presence would have the potential for creating an adversarial atmosphere that would not necessarily be in the best interests of the child.

Therefore, the attendance of attorneys at IEP meetings should be strongly discouraged. Further, as specified in Section 615(i)(3)(D)(ii) of the Act and §300.513(c)(2)(ii), Attorneys' fees may not be awarded relating to any meeting of the IEP team unless the meeting is convened as a result of an administrative proceeding or judicial action, or, at the discretion of the State, for a mediation conducted prior to the request for a due process hearing.

30. Must related services personnel attend IEP meetings?

Although Part B does not expressly require that the IEP team include related services personnel as part of the IEP team (§300.344(a)), it is appropriate for those persons to be included if a particular related service is to be discussed as part of the IEP meeting. Section 300.344(a)(6) provides that the IEP team also includes "at the discretion of the parent or the agency, other individuals who have knowledge or special expertise regarding the child, *including related services personnel as appropriate*" (Italics added.)

Further, §300.344(a)(3) requires that the IEP team for each child with a disability include "at least one special education teacher, or, if appropriate, at least one special education provider of the child..." This requirement can be met by the participation of either (1) a special education teacher of the child, or (2) another special education provider such as a speech-language pathologist, physical or occupational therapist, etc., if the related service consists of specially designed instruction and is considered special education under the applicable State standard.

If a child with a disability has an identified need for related services, it would be

appropriate for the related services personnel to attend the meeting or otherwise be involved in developing the IEP. As explained in the Committee Reports on the IDEA Amendments of 1997, "Related services personnel should be included on the team when a particular related service will be discussed at the request of the child's parents or the school." (H. Rep. No. 105-95, p. 103 (1997); S. Rep. No. 105-17, p. 23 (1997)). For example, if the child's evaluation indicates the need for a specific related service (e.g., physical therapy, occupational therapy, special transportation services, school social work services, school health services, or counseling), the agency should ensure that a qualified provider of that service either (1) attends the IEP meeting, or (2) provides a written recommendation concerning the nature, frequency, and amount of service to be provided to the child. This written recommendation could be a part of the evaluation report.

A public agency must ensure that all individuals who are necessary to develop an IEP that will meet the child's unique needs, and ensure the provision of FAPE to the child, participate in the child's IEP meeting.

31. Must the public agency ensure that all services specified in a child's IEP are provided?

Yes. The public agency must ensure that all services set forth in the child's IEP are provided, consistent with the child's needs as identified in the IEP. The agency may provide each of those services directly, through its own staff resources; indirectly, by contracting with another public or private agency; or through other arrangements. In providing the services, the agency may use whatever State, local, Federal, and private sources of support are available for those purposes (see §300.301(a)); but the services must be at no cost to the parents, and the public agency remains responsible for ensuring that the IEP services are provided in a manner that appropriately meets the student's needs as specified in the IEP. The SEA and responsible public agency may not allow the failure of another agency to provide service(s) described in the child's IEP to deny or delay the provision of FAPE to the child. (See §300.142, Methods of ensuring services)).

32. Is it permissible for an agency to have the IEP completed before the IEP meeting begins?

No. Agency staff may come to an IEP meeting prepared with evaluation findings and proposed recommendations regarding IEP content, but the agency must make it clear to the parents at the outset of the meeting that the services proposed by the agency are only recommendations for review and discussion with the parents. Parents have the right to bring questions, concerns, and recommendations to an IEP meeting as part of a full discussion, of the child's needs and the services to be provided to meet those needs before the IEP is finalized.

Public agencies must ensure that, if agency personnel bring drafts of some or all of the IEP content to the IEP meeting, there is a full discussion with the child's

parents, before the child's IEP is finalized, regarding drafted content and the child's needs and the services to be provided to meet those needs.

33. Must a public agency include transportation in a child's IEP as a related service?

As with other related services, a public agency must provide transportation as a related service if it is required to assist the disabled child to benefit from special education. (This includes transporting a preschool-aged child to the site at which the public agency provides special education and related services to the child, if that site is different from the site at which the child receives other preschool or day care services.)

In determining whether to include transportation in a child's IEP, and whether the child needs to receive transportation as a related service, it would be appropriate to have at the IEP meeting a person with expertise in that area. In making this determination, the IEP team must consider how the child's disability affects the child's need for transportation, including determining whether the child's disability prevents the child from using the same transportation provided to nondisabled children, or from getting to school in the same manner as nondisabled children.

The public agency must ensure that any transportation service included in a child's IEP as a related service is provided at public expense and at no cost to the parents, and that the child's IEP describes the transportation arrangement.

Even if a child's IEP team determines that the child does not require transportation as a related service, Section 504 of the Rehabilitation Act of 1973, as amended, requires that the child receive the same transportation provided to nondisabled children. If a public agency transports nondisabled children, it must transport disabled children under the same terms and conditions. However, if a child's IEP team determines that the child does not need transportation as a related service, and the public agency transports only those children whose IEPs specify transportation as a related service, and does not transport nondisabled children, the public agency would not be required to provide transportation to a disabled child.

It should be assumed that most children with disabilities receive the same transportation services as nondisabled children. For some children with disabilities, integrated transportation may be achieved by providing needed accommodations such as lifts and other equipment adaptations on regular school transportation vehicles.

34. Must a public agency provide related services that are required to assist a child with a disability to benefit from special education, whether or not those services are included in the list of related services in §300.24?

The list of related services is not exhaustive and may include other developmental, corrective, or supportive services if they are required to assist a child with a disability to benefit from special education. This could, depending upon the unique needs of a child, include such services as nutritional services or

service coordination.

These determinations must be made on an individual basis by each child's IEP team.

35. Must the IEP specify the amount of services or may it simply list the services to be provided?

The amount of services to be provided must be stated in the IEP, so that the level of the agency's commitment of resources will be clear to parents and other IEP team members. (§300.347(a)(6)). The amount of time to be committed to each of the various services to be provided must be (1) appropriate to the specific service, and (2) stated in the IEP in a manner that is clear to all who are involved in both the development and implementation of the IEP.

The amount of a special education or related service to be provided to a child may be stated in the IEP as a range (e.g., speech therapy to be provided three times per week for 30-45 minutes per session) only if the IEP team determines that stating the amount of services as a range is necessary to meet the unique needs of the child. For example, it would be appropriate for the IEP to specify, based upon the IEP team's determination of the student's unique needs, that particular services are needed only under specific circumstances, such as the occurrence of a seizure or of a particular behavior. A range may not be used because of personnel shortages or uncertainty regarding the availability of staff.

36. Under what circumstances is a public agency required to permit a child with a disability to use a school-purchased assistive technology device in the child's home or in another setting?

Each child's IEP team must consider the child's need for assistive technology (AT) in the development of the child's IEP (§300.346(a)(2)(v)); and the nature and extent of the AT devices and services to be provided to the child must be reflected in the child's IEP (§300.346(c)).

A public agency must permit a child to use school-purchased assistive technology devices at home or in other settings, if the IEP team determines that the child needs access to those devices in nonstop settings in order to receive FAPE (to complete homework, for example).

Any assistive technology devices that are necessary to ensure FAPE must be provided at no cost to the parents, and the parents cannot be charged for normal use, wear and tear. However, while ownership of the devices in these circumstances would remain with the public agency, State law, rather than Part B, generally would govern whether parents are liable for loss, theft, or damage due to negligence or misuse of publicly owned equipment used at home or in other settings in accordance with a child's IEP.

37. Can the IEP team also function as the group making the placement decision for a child with a disability?

Yes, a public agency may use the IEP team to make the placement decision for a

child, so long as the group making the placement decision meets the requirements of §§300.552 and 300.501(c), which requires that the placement decision be made by a group of persons, including the parents, and other persons knowledgeable about the child, the meaning of the evaluation data, and the placement options.

38. If a child's IEP includes behavioral strategies to address a particular behavior, can a child ever be suspended for engaging in that behavior?

If a child's behavior impedes his or her learning or that of others, the IEP team, in developing the child's IEP, must consider, if appropriate, development of strategies, including positive behavioral interventions, strategies and supports to address that behavior, consistent with §300.346(a)(2)(i). This means that in most cases in which a child's behavior that impedes his or her learning or that of others is, or can be readily anticipated to be, repetitive, proper development of the child's IEP will include the development of strategies, including positive behavioral interventions, strategies and supports to address that behavior. See §300.346(c). This includes behavior that could violate a school code of conduct. A failure to, if appropriate, consider and address these behaviors in developing and implementing the child's IEP would constitute a denial of FAPE to the child. Of course, in appropriate circumstances, the IEP team, which includes the child's parents, might determine that the child's behavioral intervention plan includes specific regular or alternative disciplinary measures, such as denial of certain privileges or short suspensions, that would result from particular infractions of school rules, along with positive behavior intervention strategies and supports, as a part of a comprehensive plan to address the child's behavior. Of course, if short suspensions that are included in a child's IEP are being implemented in a manner that denies the child access to the ability to progress in the educational program, the child would be denied FAPE.

Whether other disciplinary measures, including suspension, are ever appropriate for behavior that is addressed in a child's IEP will have to be determined on a case by case basis in light of the particular circumstances of that incident. However, school personnel may not use their ability to suspend a child for 10 days or less at a time on multiple occasions in a school year as a means of avoiding appropriately considering and addressing the child's behavior as a part of providing FAPE to the child.

39. If a child's behavior in the regular classroom, even with appropriate interventions, would significantly impair the learning of others, can the group that makes the placement decision determine that placement in the regular classroom is inappropriate for that child?

The IEP team, in developing the IEP, is required to consider, when appropriate, strategies, including positive behavioral interventions, strategies and supports to address the behavior of a child with a disability whose behavior impedes his or her learning or that of others. If the IEP team determines that such supports, strategies or interventions are necessary to address the behavior of the child,

those services must be included in the child's IEP. These provisions are designed to foster increased participation of children with disabilities in regular education environments or other less restrictive environments, not to serve as a basis for placing children with disabilities in more restrictive settings.

The determination of appropriate placement for a child whose behavior is interfering with the education of others requires careful consideration of whether the child can appropriately function in the regular classroom if provided appropriate behavioral supports, strategies and interventions. If the child can appropriately function in the regular classroom with appropriate behavioral supports, strategies or interventions, placement in a more restrictive environment would be inconsistent with the least restrictive environment provisions of the IDEA. If the child's behavior in the regular classroom, even with the provision of appropriate behavioral supports, strategies or interventions, would significantly impair the learning of others, that placement would not meet his or her needs and would not be appropriate for that child.

40. May school personnel during a school year implement more than one short-term removal of a child with disabilities from his or her classroom or school for misconduct?

Yes. Under §300.520(a)(1), school personnel may order removal of a child with a disability from the child's current placement for not more than 10 consecutive school days for any violation of school rules, and additional removals of not more than 10 consecutive school days in that same school year for separate incidents of misconduct, as long as these removals do not constitute a change of placement under §300.519(b). However, these removals are permitted only to the extent they are consistent with discipline that is applied to children without disabilities. Also, school personnel should be aware of constitutional due process protections that apply to suspensions of all children. Goss v. Lopez, 419 U.S. 565 (1975). Section 300.121(d) addresses the extent of the obligation to provide services after a child with a disability has been removed from his or her current placement for more than 10 school days in the same school year.
